

Canada Upstream Content

Upstream CSM+ | Seize success with streamlined solution offerings — flourish in an ever-changing world

Thrive in today's dynamic world with S&P Global Commodity Insights Upstream Solutions. We've harnessed our market-leading wealth of content, insights, and cutting-edge software and analytics solutions and combined them into streamlined enterprise-wide packages.

By integrating our solutions, you gain the actionable insights crucial for navigating global market changes. Anticipate risks, evaluate opportunities, and optimize investments with confidence.

Our approach is designed to be simple and transparent. We offer clear and easy-to-understand service packages, enterprise-wide contracts, and delivery platform-agnostic pricing. Our value-based pricing models ensure that you get the most out of our services, enabling your organization to drive efficiency and collaboration across technical and commercial workflows while making swift decisions and mitigating risks.

As your trusted partner, our solutions delivery team will continuously collaborate with you to grasp your strategic goals, challenges, and workflows. This collaboration enables us to identify areas where we can provide added value, ensuring your organization is equipped to thrive in an ever-changing world.

Overview

Geographic coverage ———— Canada

History ———— Current with daily updates

Licensing ———— Enterprise-wide access

Content package options ———— Market Insights

Market Insight

Get access to E&P data and insight, breaking news, analysis, activity, trends, and tools.

You get:

- Up-to-date current, historical, and planned activity
- Industry news and analysis
- Weekly newsletter
- Industry intelligence and commentary
- Market research and analysis reports
- Access to industry country experts
- Comprehensive E&P data
- Analytical tools

Data and distribution

Get the edge in today's global markets with our Essential Intelligence® delivered through the providers and platforms which suit you.

Markets covered:

Canadian Oil and Gas

Canadian Energy Sector

	Content and Insight	What's included
Canadian Content	Basin & Geology	Interpreted Formation Tops, Integrated Geological Data System
	Land & Locations	Freehold, Alberta Freehold Consent, Crown, Dominion, Federal, Open Crown, Land Sales/Posting History, Well Spacing Data, Land Text Data, Unit Agreements
	Wells & Logs	Directional Surveys, Core Analyses, DST (Drill stem test), Rig Activity, Raster Well Log, Digital Well Logs
	Fields & Reserves	Field, Pool, & Unit Boundaries, Oil & Gas Reserves
	Production	Production History, Initial Production Test, Fluid Analyses, Pressure Test Data
	Seismic	Seismic Survey Locations
	Spatial	Geopolitical, Topography, Engineer Related, Fields & Reservoir, Well Information, Power & Transmission, Culture, Mineral Land, Environmental, Rig Locations, Enhanced Land Grid
	Energy Documents	Current and historical well and pressure documents
Insight	Upstream Intelligence	Farm In-Farm Out, License Round Monitor & Calendar, Petroleum Rights, Exploratory Drilling, Production & Reserves, Field Development, Direct access to Experts, Daily Exploration Alert, Activity Maps, RSS Feeds
	E&P Terms & Above Ground Risks	E&P Activity & Success, E&P Fiscal, E&P Legal and Contractual, Oil & Gas Risk

Global E&P Activity intelligence

Customized Real-Time Insights

- Activity maps for Canadian region.
- Access to our experts with cross-industry knowledge.

Key market insights

- **Canada Well Log Data:** Industry's most comprehensive well and log information includes current and historical data for well headers, completions, casing, log intervals, and formation tops. Our experts specialize in standardizing government and industry information, offering customers directional surveys, core analysis, and reservoir evaluation data.
- **AccuMap™ and AccuLogs™:** Rigorous data mining, mapping, and analytical application for companies operating in the Western Canadian Sedimentary Basin and Frontier areas. AccuMap integrates various datasets including land, well, spatial, midstream, and production data to complete the big picture opportunity.
- **Energy Documents:** An essential library of source well and pressure documents enabling reduced research time, understanding of well history and insight into competitor operations.
- **Upstream Content Delivery:** Machine-to-machine delivery for enhanced and streamlined data delivery of Commodity Insights Canada data subscriptions. Includes:
 - AccuMap
 - Platts Connect
 - EDIN
 - Energy Studio: Impact
 - Enerdeq™
 - Energy DOCS
 - GEPS
 - Information HUB™
 - Well Log Downloader
- **Upstream Intelligence:** Detailed up-to-date picture of conventional E&P activity across the Canada that provides energy industry professionals with critical business intelligence and commentary on historical, current, and planned activity. Includes E&P activity maps.

Key service highlights

Unparalleled Data Integrity

60+ Years of Canadian Oil & Gas Industry Expertise

- Comprehensive and accurate critical information validated over six decades by our subject matter experts.

Comprehensive Data

Vast E&P Coverage

- Comprehensive E&P data coverage from British Columbia to the Eastern Provinces.
- Extensive well and log database containing 530,000+ digital logs, 28+ million digital raw curves, and 3+ million raster logs.

How customers are using our data and insights

Management, Strategists, Business Development, and Competitor Analysts:

- Assess the global industry position to drive informed strategic company decisions.
- Evaluate M&A activity, exploration focus, and corporate-level reserves and financial management.
- Monitor the competitive landscape and benchmark performance between assets, companies, and countries.
- Identify new opportunities and evaluate potential partners.

Landman:

- Secure access to above-ground surface and below-ground mineral rights by establishing, interpreting, and negotiating agreements with government agencies, landowners, and other companies.

Geoscientists:

- Conduct regional exploration studies and basin petroleum system evaluations.
- Integrate and interpret subsurface data to construct reservoir models and maps.
- Perform reservoir and field analysis.
- Assess upcoming bid rounds.

Drilling and Completions Engineers:

- Formulate the well plan, schedule, design, and manage drill site operations for initial drilling, completion, and subsequent well intervention procedures.

Reservoir Engineers:

- Estimate oil and gas reserves from reservoir characterization models and forecast production.
- Monitor production data to ensure the efficient recovery of established reserves.
- Economically justify capital exploitation projects.

Production Engineers:

- Evaluate well and system performance to identify production issues and inefficiencies.
- Monitor production metrics and design/adapt strategies for optimal production over the well and asset lifecycle.

Operations Engineers, Field Operators, and Supervisors:

- Manage all aspects of field-level activities of oil and gas production including data capture, production operations, resource management and reporting.

Why choose this service

- **Accelerate Geological Model Definition:** Quickly and efficiently define geological models, enhance research and interpretation methods, and decrease log management costs.
- **Unmatched Geological Insights:** Easily capture and develop the industry's most compelling geological picture of any area of interest across Canada, from discovery to production.
- **Stay Ahead of the Competition:** Accelerate the evaluation of Canadian land assignments to identify opportunities before competitors can.
- **Informed Investment Decisions:** Reduce risk when making investment decisions, allowing you to maximize production while minimizing costs.
- **Optimize Commercial Prospects:** Maximize the economic potential of your commercial prospects.
- **Expert Guidance:** Gain direct access to embedded country experts to assess the evolving interface of geology and commerce for your country or region of interest, effectively planning for the future.
- **Streamlined Data Access:** Save time by seamlessly accessing enhanced, regulatory and derived data from multiple subscription datasets via your preferred delivery option. Efficiently find and evaluate opportunities, explore properties, and manage assets across Canada.

About S&P Global Commodity Insights

At S&P Global Commodity Insights, our complete view of global energy and commodities markets enables our customers to make decisions with conviction and create long-term, sustainable value.

We're a trusted connector that brings together thought leaders, market participants, governments, and regulators to co-create solutions that lead to progress. Vital to navigating Energy Transition, S&P Global Commodity Insights' coverage includes oil and gas, power, chemicals, metals, agriculture, and shipping.

S&P Global Commodity Insights is a division of S&P Global (NYSE: SPGI). S&P Global is the world's foremost provider of credit ratings, benchmarks, analytics and workflow solutions in the global capital, commodity and automotive markets. With every one of our offerings, we help many of the world's leading organizations navigate the economic landscape so they can plan for tomorrow, today.
