Loan Platforms

Smart Syndication: a unified ecosystem for primary loan syndication

Smart Syndication, powered by ClearPar, Loan Reconciliation, and ADFlow, is a unified, audit-ready, transparent process for managing the complexities of loan syndication.

## ClearPar | Primary trade settlement

- Manage allocations, coordinate settlement with lenders, and generate trade documents
- Track settlement progress and communicate with counterparties on audit-ready, transparent platform
- Follow APLMA, LMA and LSTA syndication standards and guidelines

Loan Reconciliation | Smart position reconciliation

- Submit and reconcile agency-lender positions, eliminating mismatches and reducing audit confirmations
- Access real-time reconciliation data instantly on SOC-compliant platform
- Identify and resolve position discrepancies with detailed reports and send data downstream to Debtdomain automatically.

ADFlow | SSI/ADF authentication & onboarding

- Transform entity verification with user-driven platform for direct SSI/ADF management, reducing callbacks
- Standardise administrative detail format to reduce market complexity
- Integrate existing systems for audited, verified entity data

Key Stats

450,000+
Primary trades settled on ClearPar in 2024

14 million
Positions submitted for reconciliation monthly

20,000
Entities active on ADFlow

28,000
SSIs verified on ADFlow
