Monthly Rebalancing Announced for the S&P/ASX Australian Fixed Interest Index Series

SYDNEY, Dec 24, 2021: S&P Dow Jones Indices announced today the January 2022 rebalancing results for the S&P/ASX Australian Fixed Interest 0+ Index Series and S&P/ASX Australian Fixed Interest Index Series.

The S&P/ASX Australian Fixed Interest 0+ Index Series and S&P/ASX Australian Fixed Interest Index Series are broad benchmark index family designed to measure the performance of the portion of the Australian bond market that meets certain investable criteria. The series includes the S&P/ASX Bank Bill Index, which measures the performance of the Australian short-term money market.

Together with the S&P/ASX index family, the S&P/ASX 200 was launched in the Australian market in April 2000. The launch of these indices coincided with S&P Dow Jones Indices taking over the index business, formerly owned and managed by the Australian Securities Exchange (ASX). Both S&P Dow Jones Indices and the ASX have a long history in servicing the debt and equity markets, domestically and globally. S&P/ASX Australian Fixed Interest 0+ Index Series and S&P/ASX Australian Fixed Interest Index Series complement the existing S&P/ASX equity series, providing a complete offering of indices across investable asset classes.

The additions and deletions to the index series resulting from each month-end rebalancing are shown in Exhibit 7. Final changes resulting from the rebalance are published one (1) business day prior to the last business day of each month.

Changes become effective after the close on the last business day of each month.
