# Eligibility Criteria

## Eligibility Factors

On the rebalancing reference date, a bond must meet the following criteria to be classified as an eligible bond.

**Issuer.** The bond issuer must be a U.S. state (including the Commonwealth of Puerto Rico and U.S. territories) or local government or agency.

**Dated Date.** New additions must have a dated date later than Dec 31, 2010 to be eligible for index inclusion.

**Taxability.** The interest on the bonds must be subject to U.S. federal taxation.

**Investment Grade.** The bond must have a rating of at least BBB- by S&P Global Ratings (S&P), Baa3 by Moody's, or BBB- by Fitch. A bond must be rated by at least one of the three rating agencies in order to qualify for the index. For the avoidance of doubt, the lowest rating is used in determining if a bond meets index criteria. In determining eligibility, S&P Dow Jones Indices looks at the long-term rating, either insured or uninsured. If either a rating is not available or does not meet eligibility requirements, S&P Dow Jones Indices then looks at the underlying rating. Non-rated bonds are excluded.

**Issuance.** The bond must be denominated in U.S. dollars and subject to U.S. federal taxation. For clarity, the following bond types are specifically excluded:

- Commercial paper
- Derivative securities (inverse floaters, forwards, swaps)
- Non-rated bonds (except pre-refunded/escrowed to maturity bonds)
- Variable rate debt (except for known step-up/down coupon schedule bonds)

**Minimum Par Amount.** The bond must have a minimum par amount of US\$ 1 million to be eligible for index inclusion.

**Pricing.** Securities Evaluations | ICE Data Services must provide daily pricing on the bond.

**Minimum Term.** As of the next rebalancing date, the bond must have a minimum term to maturity greater than one calendar month. For any bond with an announced full call, the call date must be greater than one calendar month.

# Index Construction

## Constituent Weightings

Except for the S&P Taxable Municipal Bond Index, the indices are market-value-weighted at each rebalancing.

## S&P Taxable Municipal Bond Index

**Constituent Concentration Requirements.** At each rebalancing, the following constraints are applied:

- No single issuer can exceed 25% of the weight of the index.
- The aggregate weight of issuers with a weight of at least 5% cannot exceed 50% of the total weight of the index.

All excess weights are proportionally distributed to all uncapped bonds. Prices as at the rebalancing reference date are used in determining an index bond concentration.

## Index Calculations

Securities Evaluations | ICE Data Services reports the price of each bond in the index. The prices used in the index calculation add the accrued interest for each bond to the price reported by Securities Evaluations | ICE Data Services.

The total return is calculated by aggregating the interest return, reflecting the return due to paid and accrued interest, and price return, reflecting the gains or losses due to changes in the Securities Evaluations | ICE Data Services' reported end-of-day price.

*Questions and requests for written criteria and methodology regarding Securities Evaluations | ICE Data Services can be made by contacting ICE Data Services via email at [SE-ChallengeInquiry@TheICE.com](mailto:SE-ChallengeInquiry@TheICE.com).*

*For further details regarding Index Calculations, please refer to S&P Dow Jones Indices' Fixed Income Index Mathematics Methodology.*

# Index Maintenance

The index is maintained in accordance with the following rules:

- Eligible bonds are added to the indices on the next rebalancing date, subject to the schedule of monthly rebalancing procedures Any index bond that fails to meet any one of the eligibility factors is removed from the index on the next rebalancing date.
- When an index bond is in default or misses an interest payment, the price reported by Securities Evaluations | ICE Data Services is used. However, the Index Committee may determine that the bond be removed from the index at a different price and may specify a price of \$0.00.
- If an index bond is no longer priced by Securities Evaluations | ICE Data Services, the last available price from Securities Evaluations | ICE Data Services is used. However, the Index Committee may determine that a different price be used. For clarity, index bonds that are no longer priced by Securities Evaluations | ICE Data Services fail to meet the pricing eligibility factor and are removed at the next rebalancing date.

## Rebalancing

The index is reviewed and rebalanced monthly.

## Deletions

Bonds are deleted from the index at the rebalancing for the following reasons:

- Bonds that are completely called or tendered during the course of the month.
- Bonds that are scheduled to be completely called or redeemed during the course of the calendar month following the rebalancing date.
- Bonds where partial calls and redemptions have reduced the known outstanding amount to less than the minimum par amount required during the course of the month.
- Any bond that is downgraded below investment grade between rebalancing dates.

Publicly available information, up to and including the reference date, is considered in the rebalancing. Additions, deletions and other changes to the index arising from the monthly rebalancing are published on the announcement date. Index changes published in the announcement are not normally subject to revision and become effective after the close on the rebalancing date.

## Index Committee

S&P Dow Jones Indices' Municipal Bonds Index Committee maintains the index. The Committee is comprised of full-time employees of S&P Dow Jones Indices. Meetings are held monthly and, from time to time, as needed.

The Committee oversees the day-to-day management of the index, including the monthly rebalancing, determinations of intra-rebalancing changes to the index, and maintenance and inclusion policies, including additions or deletions of bonds and other matters affecting the maintenance and calculation of the index.

In fulfilling its responsibilities, the Committee has full and complete discretion to (i) amend, apply, or exempt the application of index rules and policies as circumstances may require and (ii) add, remove, or by-pass any bond in determining the composition of the index.

The Committee may rely on any information or documentation submitted to it or gathered by it that the Committee believes to be accurate. The Committee reserves the right to reinterpret publicly available information and to make changes to the index based on a new interpretation of that information at its sole discretion.

The Index Committee is separate from and independent of other analytical groups at S&P Global. In particular, the Index Committee has no access to or influence on decisions by S&P Global Ratings analysts.

S&P Dow Jones Indices' Index Committees reserve the right to make exceptions when applying the methodology if the need arises. In any scenario where the treatment differs from the general rules stated in this document or supplemental documents, clients will receive sufficient notice, whenever possible.

In addition to the daily governance of indices and maintenance of index methodologies, at least once within any 12-month period, the Index Committee reviews the methodology to ensure the indices continue to achieve the stated objectives, and that the data and methodology remain effective. In certain instances, S&P Dow Jones Indices may publish a consultation inviting comments from external parties.
