Introduction

Index Objectives and Highlights

The S&P Green Bond Indices are indices composed of globally issued bonds labeled "green" by Climate Bonds Initiative (CBI) that satisfy the criteria in *Eligibility Criteria* and *Sub-Index Rules*. A green-labeled bond is a bond whose proceeds are used to finance environmentally friendly projects.

For information on CBI's, please refer to https://www.climatebonds.net/.

Index Family

The index family includes:

- **S&P Green Bond Index.** The index measures the market value weighted performance of globally issued, green-labeled bonds.
 - S&P Green Bond Select Index. The index is a sub-index of the S&P Green Bond Index that measures the capped market-value weighted performance of globally issued, greenlabeled bonds, subject to the additional eligibility factors and constraints defined in Sub-Index Rules and Index Construction.
 - S&P U.S. Municipal Green Bond Index. The index is a sub-index of the S&P Green Bond Index that measures the market-value weighted performance of U.S. green-labeled municipal bonds, subject to the additional eligibility factors and constraints defined in Sub-Index Rules and Index Construction.
 - S&P Green Bond U.S. Dollar Select Index. The index is a sub-index of the S&P Green Bond Index that measures the capped market-value weighted performance of U.S. dollardenominated green-labeled bonds, subject to the additional eligibility factors and constraints defined in Sub-Index Rules Criteria and Index Construction.

Supporting Documents

This methodology is meant to be read in conjunction with supporting documents providing greater detail with respect to the policies, procedures and calculations described herein. References throughout the methodology direct the reader to the relevant supporting document for further information on a specific topic. The list of the main supplemental documents for this methodology and the hyperlinks to those documents is as follows:

Supporting Document	URL
S&P Dow Jones Indices' Fixed Income Policies & Practices Methodology	Fixed Income Policies & Practices
S&P Dow Jones Indices' Fixed Income Index Mathematics Methodology	Index Mathematics Methodology

This methodology was created by S&P Dow Jones Indices to achieve the aforementioned objective of measuring the underlying interest of the index governed by this methodology document. Any changes to or deviations from this methodology are made in the sole judgment and discretion of S&P Dow Jones Indices so that the index continues to achieve its objective.

Eligibility Criteria

Eligibility Factors

Eligibility factors specific to sub-indices are listed in *Sub-Index Rules*. As of the rebalancing reference date, a bond must satisfy the following to be eligible for index inclusion:

Country/Currency. Green bonds issued from any country and in any currency are eligible for index inclusion.

Green Flag. Bonds must be flagged as "green" by CBI. For a bond to be flagged green, the issuer must clearly indicate the bond's "green" label and the rationale behind it, such as the intended use of proceeds. CBI uses company disclosures to make the "green" determination. Such disclosures must be made in sources that are credible and related to the company, and may include:

Company web sites

Public Filings

Sustainability reports

• Independent second opinions

Legal disclosures

Maturity. Each bond must have a maturity greater than one month from the rebalancing date. No bond matures in the index.

Coupon Type. The following coupon types are eligible for index inclusion:

Fixed

Floaters

Zero Coupon

Fixed-to-Float

• Step-Up

Duplicate Bonds. For USD and CAD denominated bonds with multiple registrations, the 144a version will be eligible, and the Reg-S will be excluded. For all other currency denominated bonds which have multiple registrations, the Reg-S will be included while the 144a will be excluded.

Settlement. Bonds issued up to the rebalancing reference date (regardless of the settlement date) are included. Standard index settlement convention is same-day (e.g. T+0), unless otherwise specified. For month-ends that fall on weekends, the interest accrued during the month will be reflected within the calendar month regardless of settlement convention. For rates that are not available at month-end (e.g. a rate with an unknown reset), the accrual will be based on the current rate and adjusted the first business day of the next month.

Exclusions. The following bond types are specifically excluded from the indices:

Bills

Inflation-Linked

STRIPS

Convertible bonds¹

Pricing. Bid Price – LSEG is the designated pricing source for all non-U.S. Municipal securities and Securities Evaluations | ICE Data Services is the designated pricing source for U.S. Municipal securities. Bonds not priced by LSEG or Securities Evaluations | ICE Data Services are ineligible for index inclusion.

¹ Bonds with convertible features (including Contingent Convertibles) are excluded from the index.

Sub-Index Rules

S&P Green Bond Select Index

Currency and Market of Issue. Bonds issued in G10 currencies are eligible for index inclusion. Bonds issued in non-G10 currencies must be issued in global markets (e.g. Foreign, Global, or Eurobond) to be eligible for index inclusion.

Coupon Type. Floaters are not eligible for sub-index inclusion.

Optionality. Bullets, callable and puttable securities are included. Fixed-to-floating rate securities qualify if they are in the fixed phase and have at least one month until the date they transition to floating. Step-up coupon securities qualify if they have a predetermined coupon schedule.

Maturity. Each bond must have a maturity greater than one month from the rebalancing date. No bond matures in the index.

Security Type. The following bond types, including those excluded from the parent, are specifically excluded from the sub-index:

- Sukuk Bonds
- Convertible Securities
- Floating-rate Securities

- Private Placement with no registration
- Perpetual Securities
- Tax Exempt Municipal Bonds

Credit Rating Quality.

- **New Issues.** New issues must be rated by at least one rating agency (S&P Global Ratings [SPGR], Moody's or Fitch) to be considered at the subsequent rebalancing.
- **Non-rated and Defaulted Bonds.** Bonds no longer rated or that have defaulted are removed at the subsequent rebalancing.
- **Investment Grade.** The minimum credit rating for inclusion is BBB-/Baa3/BBB-. The lowest of all available ratings (SPGR, Moody's, and Fitch) is used as the index rating.
- **High Yield.** The maximum credit rating for inclusion is BB+/Ba1/BB+. The lowest of all available credit ratings (SPGR, Moody's, and Fitch) is used as the index rating.

The issuer rating may be applied in place of the bond level ratings. For example, a sovereign bond index may apply the long-term foreign currency issuer rating in place of each sovereign bond issue.

Minimum Par Outstanding. The minimum par outstanding requirements based on issuer type and currency of issue are outlined in the table below.

Minimum Notional Par Amount Outstanding								
Currency of Issue	Sovereign	Investment Grade	High Yield	U.S. Muni Taxable	Market of Issue			
oi issue	Sovereign	Grade	nigh rield	Taxable	Market of Issue

S&P U.S. Municipal Green Bond Index

Issuer. The bond issuer is a U.S. state (including the Commonwealth of Puerto Rico and U.S. territories) or local government or agency such that interest on the bond is exempt from U.S. federal income taxes but may be subject to alternative minimum tax (AMT).

Currency. The bond must be denominated in U.S. dollars.

Maturity. As of the rebalancing date, the bond must have a minimum term to maturity greater than one calendar month. For any bond with an announced full call, the call date must be greater than one calendar month.

Security Type. The following bond types are specifically excluded:

- Commercial paper
- Derivative securities (inverse floaters, forwards, & swaps)
- Notes
- Taxable municipals
- Variable rate debt (except for known step-up/down coupon schedule bonds)
- Defaulted Bonds

Minimum Par Amount. Bonds must have a minimum par amount of US\$ 2 million to be eligible for inclusion.

S&P Green Bond U.S. Dollar Select Index

Currency. The bond must be denominated in U.S. dollars.

Maturity. Each bond must have at least 12 months to final maturity at the time of issuance to be included, and have at least one month remaining until maturity at each rebalancing date. No bond matures in the index.

Minimum Par Outstanding. The minimum par outstanding must be US\$ 200 million or greater.

Security Type. The following bond types, in addition to those excluded from the parent, are specifically excluded from the sub-index:

- Tax Exempt Municipal Bonds
- Convertible Securities

- Private Placement with no registration
- Perpetual Securities

Credit Rating Quality.

- **Non-rated bonds.** Non-rated bonds issued by U.S. government sponsored enterprises, such as FNMA, Freddie Mac, etc., are eligible for inclusion.
- **Defaulted Bonds.** Bonds that have defaulted are removed at the next rebalancing.

Index Construction

Index Calculations

S&P Green Bond Index and S&P U.S. Municipal Green Bond Index. The indices are market value weighted.

S&P Green Bond Select Index and S&P Green Bond U.S. Dollar Select Index. The indices are market value weighted subject to the following constraints:

- 1. Issuers (including non-rated issuers for the S&P Green Bond U.S. Dollar Select Index) are capped at 10%.²
- 2. If the High Yield portion of the index exceeds 20% following step 1, a 20% cap is applied. The excess weight is redistributed proportionally to all uncapped securities that do not carry a high yield rating.

The total return is calculated by aggregating the interest return, reflecting the return due to paid and accrued interest, and price return, reflecting the gains or losses due to changes in the end-of-day price and principal repayments.

For further details regarding index calculations please refer to S&P Dow Jones Indices' Fixed Income Index Mathematics Methodology.

S&P Dow Jones Indices: S&P Green Bond Indices

9

² Based on the number of issuers in the index prior to 2015 the capping rules were not applied.

Index Maintenance

Rebalancing

Indices are reviewed and rebalanced in accordance with the stated schedule. The Index Committee, nevertheless, reserves the right to make adjustments to an index at any time that it believes appropriate.

Additions, deletions and other changes to an index arising from the rebalancing are made provided the security's reference information and pricing are available by designated pricing and data providers on the rebalancing reference date. Changes to an index are published on the announcement date and become effective on the rebalancing date. Information related to the rebalancing is obtained and disseminated after the close of business.

Rebalancing Schedule				
Rebalancing Frequency	Monthly			
Rebalancing Date	Last day of the rebalancing period (T)			
Announcement Date	T – 3			
Reference Date	T – 4			

All days reflect after the close and count business days

Ongoing Maintenance

For more information on treatment of defaults or lack of daily price data, please refer to the Defaults section of S&P Dow Jones Indices' Fixed Income Policies & Practices Methodology.

Currency of Calculation and Additional Index Return Series

The indices are calculated in U.S. dollars.

WMR foreign exchange rates are taken daily at 4:00 PM London Time and used in the calculation of the indices. These mid-market fixings are calculated by WMR based on LSEG data and appear on LSEG pages.

Additional currency and currency hedged versions of the indices, as well as maturity, sector, and rating-based sub-indices may be available. For a list of available sub-indices and tickers, please refer to S&P Dow Jones Indices' Fixed Income Index Directory available at www.spglobal.com/spdji/.

For more information on currency and currency hedged indices, please refer to S&P Dow Jones Indices' Fixed Income Index Mathematics Methodology.

Base Dates and History Availability

Indices history availability, base dates, and base values are shown in the table below.

Index	Launch Date	First Value Date	Base Date	Base Value
S&P Green Bond Index	07/21/2014	11/28/2008	11/28/2008	100
S&P Green Bond Select Index	02/17/2017	11/28/2008	11/28/2008	100
S&P U.S. Municipal Green Bond Index	01/14/2019	06/30/2014	06/30/2014	100
S&P Green Bond U.S. Dollar Select Index	06/17/2019	05/01/2009	05/01/2009	100

Index Governance

Index Committee

An Index Committee maintains the indices. All committee members are full-time professionals at S&P Dow Jones Indices. Meetings are held regularly.

The Index Committee oversees the management of the indices, including determinations of intrarebalancing changes, maintenance and inclusion policies, and other matters affecting the maintenance and calculation of the indices.

In fulfilling its responsibilities, the Index Committee has full and complete discretion to (i) amend, apply, or exempt the application of index rules and policies as circumstances may require and (ii) add, remove, or by-pass any bond in determining the composition of the index.

The Index Committee may rely on any information or documentation submitted to it or gathered by it that the Index Committee believes to be accurate. The Index Committee reserves the right to reinterpret publicly available information and to make changes to the index based on a new interpretation of that information at its sole discretion. All Index Committee discussions are confidential.

The Index Committee is separate from and independent of other analytical groups at S&P Global. In particular, the Index Committee has no access to or influence on decisions by S&P Global Ratings analysts.

S&P Dow Jones Indices' Index Committees reserve the right to make exceptions when applying the methodology if the need arises. In any scenario where the treatment differs from the general rules stated in this document or supplemental documents, clients will receive sufficient notice, whenever possible.

In addition to the daily governance of indices and maintenance of index methodologies, at least once within any 12-month period, the Index Committee reviews the methodology to ensure the indices continue to achieve the stated objectives, and that the data and methodology remain effective. In certain instances, S&P Dow Jones Indices may publish a consultation inviting comments from external parties.

For information on Quality Assurance and Internal Reviews of Methodology, please refer to S&P Dow Jones Indices' Fixed Income Policies & Practices Methodology.

Index Policy

Announcements

Announcements of any relevant information pertaining to the indices are made after market close. Press releases are posted on the S&P Dow Jones Indices Web site at www.spglobal.com/spdji/

Holiday Schedule

The indices are calculated on all business days of the year (Monday through Friday).

A complete holiday schedule for the year is available on S&P Dow Jones Indices' Web site at www.spqlobal.com/spdji/.

Rebalancing

The Index Committee may change the date of a given rebalancing for reasons including market holidays occurring on or around the scheduled rebalancing date. Any such change will be announced with proper advance notice where possible.

End-of-Day Calculation

Index levels are calculated at the end of each business day, via S&P Dow Jones Indices' Web site. This may be subject to change.

Index Releases

Releases are issued by S&P Dow Jones Indices at the end of the business day.

Recalculation Policy

For information on the recalculation policy please refer to S&P Dow Jones Indices' Fixed Income Policies & Practices document.

For information on Calculations and Pricing Disruptions, Expert Judgment and Data Hierarchy, please refer to S&P Dow Jones Indices' Fixed Income Policies & Practices Methodology.

Contact Information

For questions regarding an index, please contact: index services@spglobal.com.

Index Dissemination

Index levels are available through S&P Dow Jones Indices' Web site at www.spglobal.com/spdji/, major quote vendors (see codes below), numerous investment-oriented Web sites, and various print and electronic media.

Tickers

The table below lists headline indices covered by this document. All versions of the below indices that may exist are also covered by this document. Please refer to the <u>S&P DJI Methodology & Regulatory Status Database</u> for a complete list of indices covered by this document.

For further information, please refer to S&P Dow Jones Indices' Web site at www.spqlobal.com/spdii/.

Appendix I

Methodology Changes

Methodology changes since January 1, 2015 are as follows:

	Effective Date	Metho	Methodology			
Change	(After Close)	Previous	Updated			
Holiday Schedule	04/30/2019	The indices are calculated on all business days of the year (Monday through Friday) except Christmas and New Year's day.	The indices are calculated on all business days of the year (Monday through Friday).			
Par Amount Changes	06/30/2017	See <i>Appendix II</i> for details on the previous and updated par amounts.	See <i>Appendix II</i> for details on the previous and updated par amounts.			
Rebalancing Announcement Date and Pro- forma Schedule	06/30/2017	The rebalancing announcement date is the second to last business day (T-1) of the month. Pro-forma files are delivered on the second to last business day of the month.	The rebalancing announcement date is the fourth to last business day (T-3) of the month. Pro-forma files will be delivered on each of the last four business days of the month.			

Appendix II

Par Amount Changes

Par amounts outstanding changes effective after the close on June 30, 2017 are as follows:

Performance Disclosure/Back-Tested Data

Where applicable, S&P Dow Jones Indices and its index-related affiliates ("S&P DJI") defines various dates to assist our clients by providing transparency. The First Value Date is the first day for which there is a calculated value (either live or back-tested) for a given index. The Base Date is the date at which the index is set to a fixed value for calculation purposes. The Launch Date designates the date when the values of an index are first considered live: index values provided for any date or time period prior to the index's Launch Date are considered back-tested. S&P DJI defines the Launch Date as the date by which the values of an index are known to have been released to the public, for example via the company's public website or its data feed to external parties. For Dow Jones-branded indices introduced prior to May 31, 2013, the Launch Date (which prior to May 31, 2013, was termed "Date of introduction") is set at a date upon which no further changes were permitted to be made to the index methodology, but that may have been prior to the Index's public release date.

Please refer to the methodology for the Index for more details about the index, including the manner in which it is rebalanced, the timing of such rebalancing, criteria for additions and deletions, as well as all index calculations.

Information presented prior to an index's launch date is hypothetical back-tested performance, not actual performance, and is based on the index methodology in effect on the launch date. However, when creating back-tested history for periods of market anomalies or other periods that do not reflect the general current market environment, index methodology rules may be relaxed to capture a large enough universe of securities to simulate the target market the index is designed to measure or strategy the index is designed to capture. For example, market capitalization and liquidity thresholds may be reduced. In addition, forks have not been factored into the back-test data with respect to the S&P Cryptocurrency Indices. For the S&P Cryptocurrency Top 5 & 10 Equal Weight Indices, the custody element of the methodology was not considered; the back-test history is based on the index constituents that meet the custody element as of the Launch Date. Also, the treatment of corporate actions in back-tested performance may differ from treatment for live indices due to limitations in replicating index management decisions. Back-tested performance reflects application of an index methodology and selection of index constituents with the benefit of hindsight and knowledge of factors that may have positively affected its performance, cannot account for all financial risk that may affect results and may be considered to reflect survivor/look ahead bias. Actual returns may differ significantly from, and be lower than, back-tested returns. Past performance is not an indication or guarantee of future results.

Typically, when S&P DJI creates back-tested index data, S&P DJI uses actual historical constituent-level data (e.g., historical price, market capitalization, and corporate action data) in its calculations. As ESG investing is still in early stages of development, certain datapoints used to calculate certain ESG indices may not be available for the entire desired period of back-tested history. The same data availability issue could be true for other indices as well. In cases when actual data is not available for all relevant historical periods, S&P DJI may employ a process of using "Backward Data Assumption" (or pulling back) of ESG data for the calculation of back-tested historical performance. "Backward Data Assumption" is a process that applies the earliest actual live data point available for an index constituent company to all prior historical instances in the index performance. For example, Backward Data Assumption inherently assumes that companies currently not involved in a specific business activity (also known as "product involvement") were never involved historically and similarly also assumes that companies currently involved in a specific business activity were involved historically too. The Backward Data Assumption allows the hypothetical back-test to be extended over more historical years than would be feasible using only actual data. For more information on "Backward Data Assumption" please refer to the FAQ. The methodology and factsheets of any index that employs backward assumption in the back-tested history

will explicitly state so. The methodology will include an Appendix with a table setting forth the specific data points and relevant time period for which backward projected data was used. Index returns shown do not represent the results of actual trading of investable assets/securities. S&P DJI maintains the index and calculates the index levels and performance shown or discussed but does not manage any assets.

Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the Index or investment funds that are intended to track the performance of the Index. The imposition of these fees and charges would cause actual and back-tested performance of the securities/fund to be lower than the Index performance shown. As a simple example, if an index returned 10% on a US \$100,000 investment for a 12-month period (or US \$10,000) and an actual asset-based fee of 1.5% was imposed at the end of the period on the investment plus accrued interest (or US \$1,650), the net return would be 8.35% (or US \$8,350) for the year. Over a three-year period, an annual 1.5% fee taken at year end with an assumed 10% return per year would result in a cumulative gross return of 33.10%, a total fee of US \$5,375, and a cumulative net return of 27.2% (or US \$27,200).

S&P Global has established policies and procedures to maintain the confidentiality of certain nonpublic information received in connection with each analytical process.

In addition, S&P Dow Jones Indices provides a wide range of services to, or relating to, many organizations, including issuers of securities, investment advisers, broker-dealers, investment banks, other financial institutions, and financial intermediaries, and accordingly may receive fees or other economic benefits from those organizations, including organizations whose securities or services they may recommend, rate, include in model portfolios, evaluate, or otherwise address.

Some indices use the Global Industry Classification Standard (GICS®), which was developed by, and is the exclusive property and a trademark of, S&P Global and MSCI. Neither MSCI, S&P DJI nor any other party involved in making or compiling any GICS classifications makes any express or implied warranties or representations with respect to such standard or classification (or the results to be obtained by the use

thereof), and all such parties hereby expressly disclaim all warranties of originality, accuracy, completeness, merchantability, or fitness for a particular purpose with respect to any of such standard or classification. Without limiting any of the foregoing, in no event shall MSCI, S&P DJI, any of their affiliates or any third party involved in making or compiling any GICS classifications have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

S&P Dow Jones Indices products are governed by the terms and conditions of the agreements under which they may be provided. A license is required from S&P Dow Jones Indices to display, create derivative works of and/or distribute any product or service that uses, is based upon and/or refers to any S&P Dow Jones Indices and/or index data.

ESG Indices Disclaimer

S&P DJI provides indices that seek to select, exclude, and/or weight index constituents based on, but not limited to, certain environmental, social or governance (ESG) indicators, or a combination of those indicators, including the following: environmental indicators (including the efficient use of natural resources, the production of waste, greenhouse gas emissions, or impact on biodiversity); social indicators (such as, inequality and investment in human capital); governance indictors (such as sound management structures, employee relations, remuneration of staff, tax compliance, respect for human rights, anti-corruption and anti-bribery matters), specific sustainability or values-related company involvement indicators (for example, production/distribution of controversial weapons, tobacco products, or thermal coal), or controversies monitoring (including research of media outlets to identify companies involved in ESG-related incidents).

S&P DJI ESG indices use ESG metrics and scores in the selection and/or weighting of index constituents. ESG scores or ratings seek to measure or evaluate a company's, or an asset's, performance with respect to environmental, social and corporate governance issues.

The ESG scores, ratings, and other data used in S&P DJI ESG indices is supplied directly or indirectly by third parties (note these parties can be independent affiliates of S&P Global or unaffiliated entities) so an S&P DJI ESG index's ability to reflect ESG factors depends on these third parties' data accuracy and availability.

ESG scores, ratings, and other data may be reported (meaning that the data is provided as disclosed by companies, or an asset, or as made publicly available), modelled (meaning that the data is derived using a proprietary modelling process with only proxies used in the creation of the data), or reported and modelled (meaning that the data is either a mix of reported and modelled data or is derived from the vendor using reported data /information in a proprietary scoring or determination process).

ESG scores, ratings, and other data, whether from an external and/or internal source, is based on a qualitative and judgmental assessment, especially in the absence of well-defined market standards, and due to the existence of multiple approaches and methodologies to assess ESG factors and considerations. An element of subjectivity and discretion is therefore inherent in any ESG score, rating, or other data and different ESG scoring, rating, and/or data sources may use different ESG assessment or estimation methodologies. Different persons (including ESG data ratings, or scoring providers, index administrators or users) may arrive at different conclusions regarding the sustainability or impact of a particular company, asset, or index.

Where an index uses ESG scores, ratings or other data supplied directly or indirectly by third parties, S&P DJI does not accept responsibility for the accuracy of completeness of such ESG scores, ratings, or data. No single clear, definitive test or framework (legal, regulatory, or otherwise) exists to determine 'ESG', 'sustainable', 'good governance', 'no adverse environmental, social and/or other impacts', or other equivalently labelled objectives. In the absence of well-defined market standards and due to the existence of multitude approaches, the exercise of judgment is necessary. Accordingly, different persons may classify the same investment, product and/or strategy differently regarding 'ESG', 'sustainable', 'good governance', 'no adverse environmental, social and/or other impacts', or other equivalently labelled

objectives. Furthermore, the legal and/or market position on what constitutes an 'ESG', 'sustainable', 'good governance', 'no adverse environmental, social and/or other impacts', or other equivalently labelled objectives may change over time, especially as further regulatory or industry rules and guidance are issued and the ESG sustainable finance framework becomes more sophisticated.

Prospective users of an S&P DJI ESG Index are encouraged to read the relevant index methodology and related disclosures carefully to determine whether the index is suitable for their potential use case or investment objective.
