

S&P Global CSA Industry-GICS Sub-Industry Mapping

S&P Global CSA Industries

S&P Global calculates ESG scores that are derived from the 'Corporate Sustainability Assessment' (CSA). A company's ESG score is derived using either company-provided data, publicly available information, or a combination thereof. For the purposes of CSA assessment companies are assigned to one of the S&P Global CSA Industries and are assessed using that industry's specific questionnaire.

S&P Global uses the Global Industry Classification Standard (GICS®) as its starting point for determining a company's CSA Industry classification. At the industry group and sector levels, the S&P Global CSA Industries match the standard GICS classifications, but some nonstandard aggregations are done at the industry level.

The below table demonstrates the current (as of March 2023), GICS Sub-Industry to S&P Global CSA Industry mapping:

GICS Sub-Industry	GICS Code	S&P Global CSA Industry
Passenger Airlines	20302010	AIR Airlines
Aluminum	15104010	ALU Aluminum
Aerospace & Defense	20101010	ARO Aerospace & Defense
