Introduction

Index Objective

The S&P Global Bond Indices consist of sovereign, quasi, & foreign government and corporate bond indices measuring the market-value-weighted performance of local currency bond markets.

Index Families

The index family includes the following:

- **S&P Global Developed Aggregate Ex-Collateralized Bond Index.** The index measures the performance of investment grade debt issued by sovereign, quasi-sovereign, foreign government, and corporate entities in the native currencies of the developed countries listed in this document's *Available Composites* section. This index excludes collateralized bonds.
 - **S&P Global Developed Sovereign Bond Index.** The index measures the performance of developed-market sovereign debt.
 - **S&P Global Developed Sovereign Ex-U.S. Bond Index.** The index measures the performance of developed-market sovereign debt and excludes U.S. Treasury bonds.
- **S&P Eurozone Developed Sovereign Bond Index.** The index is a sub-index of the S&P Pan-Europe Developed Sovereign Bond Index and measures the performance of developed-market Eurozone sovereign debt.
- **S&P Eurozone Sovereign Bond Index.** The index measures the performance of both developed-market and emerging-market Eurozone sovereign debt.
- **S&P Global Developed Corporate Bond Index.** The index is a subset of the S&P Global Developed Aggregate Ex-Collateralized Index and tracks the performance of developed-market corporate bonds.
 - **S&P Global Developed Corporate Infrastructure Bond Index.** The index is a subset of the S&P Global Developed Corporate Bond Index and tracks the performance of investment grade infrastructure corporate bonds in the native currencies of the developed countries listed in *Available Composites*.
 - **S&P Global Developed Corporate Infrastructure Bond Select Min Par Index.** The index is a subset of the S&P Global Developed Corporate Infrastructure Bond Index meeting a Minimum Par Amount, which is detailed in this document's *Index-Specific Eligibility Factors* section.
 - **S&P Solvency II Capital Efficiency Corporate Bond Index.** The index is a subset of the S&P Global Developed Corporate Infrastructure Bond Select Min Par Index and tracks the performance of bonds meeting the eligibility criteria under Solvency II. Solvency II eligibility is subject to a recurring independent assessment made by Deloitte Tax & Consulting S.à r.l.
- **S&P U.S. Aggregate Bond Index.** The index measures the performance of the U.S. dollar-denominated investment grade U.S. fixed income market, including U.S. Treasuries, quasi-governments, supranational and non-U.S. governments and agencies, corporates, covered bonds, residential mortgage pass-throughs and taxable municipal bonds. Non-residential mortgage collateralized debt, such as commercial mortgage-backed securities, asset-backed securities, and all collateralized mortgage obligations, are excluded from the index.

- **S&P U.S. Ultra Short Treasury Bill & Bond Index.** The index measures the performance of U.S. Treasury bills and Treasury bonds and notes with less than one remaining year to maturity.
- **S&P U.S. Government Bond Index.** The index measures the performance of U.S. dollar-denominated U.S Treasury and agency securities.
- **S&P U.S. Government & Corporate Bond Index.** The index measures the performance of U.S. dollar-denominated U.S Treasury, agency and U.S. investment grade corporate securities.
- **S&P U.S. Government / Credit Bond Index.** The index measures the performance of the U.S. dollar-denominated investment grade U.S. fixed income market, including U.S. Treasuries, quasi-governments, supranational and non-U.S. governments and agencies, corporates, and taxable municipal bonds.
- **S&P U.S. Dollar Global Investment Grade Corporate Bond Index.** The index measures the performance of U.S. dollar-denominated investment grade corporate bonds.
- **S&P U.S. Dollar Global Investment Grade Corporate Bond Crossover Rated Index.** The index measures the performance of U.S. dollar-denominated corporate bonds whose lowest available rating from S&P, Moody's and Fitch falls on or between BB-/Ba3/BB- and BBB+/Baa1/BBB+.
- **S&P U.S. Investment Grade Corporate Bond Index.** The index measures the performance of U.S. dollar-denominated investment grade corporate bonds issued in the U.S. by companies whose country of risk¹ use official G-10 currencies, excluding those countries that are members of the United Nations Eastern European Group (EEG).
- **Dow Jones Equal Weight U.S. Issued Corporate Bond Index.** The index measures equal weighted performance of a subset of the S&P U.S. Investment Grade Corporate Bond Index which contains one bond per issuer and has a maximum of 100 total constituents. Hybrid instruments and securities with deferred interest payments are excluded. For each issuer, the bond with the largest par amount outstanding is considered for inclusion. In cases of ties, the bond with the most recent issue date is considered.
- **S&P U.S. Foreign Issued Investment Grade Corporate Bond Index.** The index measures the performance of U.S. dollar-denominated investment grade corporate bonds which meet at least one of the following criteria:
 - Issued outside of the U.S.
 - Issued by a company whose country of risk falls outside the G-10 currencies.
 - Issued by a company whose country of risk is included in the United Nations Eastern European Group (EEG).
- **S&P U.S. Catholic Values Aggregate Bond Index.** The index measures the performance of a combination of the S&P U.S. Government Bond Index, S&P 500 Catholic Values Investment Grade Bond Index², and S&P U.S. Mortgage-Backed Securities Index. At each rebalancing, index weights are assigned so that the sector weights for the 11 Corporate GICS sectors are matched to the corresponding GICS sector weights in the S&P U.S. Aggregate Bond Index, with non-corporate bonds re-weighted proportionally to maintain the index's original market value. Additionally, S&P Dow Jones Indices consults with Father Séamus Finn O.M.I., Chief of Faith Consistent Investing for the Oblate International Pastoral Investment Trust, on issues related to the index methodology's consistency with the Socially Responsible Investment Guidelines of the USCCB.
- **S&P U.S. Dollar Global High Yield Corporate Bond Index.** The index measures the performance of U.S. dollar-denominated high yield corporate bonds.

¹ Country of Risk data considers revenue by geography, company headquarters country, security listing country and filing currency country to assign country of risk. If country of risk data is not available, country of domicile is used.

² For information on the S&P 500 Catholic Values Investment Grade Bond Index please refer to the S&P 500 Bond Index Methodology available at www.spglobal.com/spdji/.

- **S&P U.S. High Yield Corporate Bond Index.** The index measures the performance of U.S. dollar-denominated high yield corporate bonds issued in the U.S. by companies whose country of risk use official G-10 currencies, excluding those countries that are members of the United Nations Eastern European Group (EEG).
 - **S&P U.S. High Yield Corporate Distressed Bond Index.** The index measures the performance of bonds in the S&P U.S. High Yield Corporate Bond Index with a minimum option adjusted spread of 1,000 basis points.
- **S&P Canada All Bond Index.** The index measures the performance of the Canadian fixed income market and is comprised of the S&P Canada Aggregate Bond Index and the S&P Canada High Yield Corporate Bond Index.
- **S&P Canada Aggregate Bond Index.** The index measures the performance of the investment grade Canadian fixed income market, including government, provincial and municipal, corporate, covered bond, and collateralized securities.
 - **S&P Canada Government Bond Index.** The index measures the performance of Canadian dollar denominated government, provincial and municipal investment grade securities.
- **S&P Australia Aggregate Bond Index.** The index measures the performance of the investment grade Australian fixed income market, including government, provincial and municipal, corporate, covered bond, and collateralized securities
- **S&P Denmark Aggregate Bond Index.** The index measures the performance of the investment grade Danish fixed income market, including sovereign, quasi and foreign government, corporate and collateralized securities.
- **S&P New Zealand Aggregate Bond Index.** The index measures the performance of the investment grade New Zealand fixed income market, including sovereign, quasi and foreign government, corporate and collateralized securities.
- **S&P Norway Aggregate Bond Index.** The index measures the performance of the investment grade Norwegian fixed income market, including sovereign, quasi and foreign government, corporate and collateralized securities.

Available Composites

The S&P Global Aggregate Bond Indices include the following:

Sovereign

- | | |
|---|--|
| • S&P Australia Sovereign Bond Index | • S&P Japan Sovereign Bond Index |
| • S&P Austria Sovereign Bond Index | • S&P Latvia Sovereign Bond Index |
| • S&P Belgium Sovereign Bond Index | • S&P Lithuania Sovereign Bond Index |
| • S&P Canada Sovereign Bond Index | • S&P Luxembourg Sovereign Bond Index |
| • S&P Cyprus Sovereign Bond Index | • S&P Malta Sovereign Bond Index |
| • S&P Czech Republic Sovereign Bond Index | • S&P Netherlands Sovereign Bond Index |
| • S&P Denmark Sovereign Bond Index | • S&P New Zealand Sovereign Bond Index |
| • S&P Estonia Sovereign Bond Index | • S&P Norway Sovereign Bond Index |
| • S&P Eurozone Developed Sovereign Bond Index | • S&P Portugal Sovereign Bond Index ³ |
| • S&P Eurozone Sovereign Bond Index | • S&P/BVL Peru Sovereign Bond Index |
| • S&P Finland Sovereign Bond Index | • S&P Slovakia Sovereign Bond Index |

| • S&P Germany Sovereign Bond Index | • S&P South Korea Sovereign Bond Index |
| • S&P Global Developed Sovereign Bond Index | • S&P Spain Sovereign Bond Index |

- S&P Greece Sovereign Bond Index³
- S&P Iceland Sovereign Bond Index
- S&P Ireland Sovereign Bond Index
- S&P Israel Sovereign Bond Index
- S&P Italy Sovereign Bond Index

- S&P Sweden Sovereign Bond Index
- S&P Switzerland Sovereign Bond Index
- S&P U.K. Gilt Index
- S&P U.S. Treasury Bond Index

Quasi & Foreign Government

- S&P Australia Quasi & Foreign Government Bond Index
- S&P Canada Provincial & Municipal Bond Index
- S&P Denmark Quasi & Foreign Government Bond Index
- S&P Eurozone Quasi & Foreign Government Bond Index
- S&P Japan Quasi & Foreign Government Bond Index
- S&P New Zealand Quasi & Foreign Government Bond Index
- S&P Norway Quasi & Foreign Government Bond Index
- S&P Sweden Quasi & Foreign Government Bond Index
- S&P Switzerland Quasi & Foreign Government Bond Index
- S&P Taxable Municipal USD250 Million Par Bond Index
- S&P U.K. Quasi & Foreign Government Bond Index
- S&P U.S. Agency Index
- S&P U.S. Supranational & Foreign Government Bond Index
- S&P U.S. Supranational & Foreign Government Bond Index

Investment Grade Corporate

- S&P Australia Investment Grade Corporate Bond Index
- S&P Canada Investment Grade Corporate Bond Index
- S&P Denmark Investment Grade Corporate Bond Index
- S&P Eurozone Investment Grade Corporate Bond Index
- S&P Japan Investment Grade Corporate Bond Index
- S&P New Zealand Investment Grade Corporate Bond Index
- S&P Norway Investment Grade Corporate Bond Index
- S&P Sweden Investment Grade Corporate Bond Index
- S&P Switzerland Investment Grade Corporate Bond Index
- S&P U.K. Investment Grade Corporate Bond Index
- S&P U.S. Dollar Global Investment Grade Corporate Bond Index
- S&P U.S. Investment Grade Corporate Bond Index
- S&P U.S. Foreign Issued Global Investment Grade Corporate Bond Index
- S&P U.S. Foreign Issued Global Investment Grade Corporate Bond Index

S&P Norway Aggregate Bond Index

- S&P Norway Collateralized Bond Index
- S&P Norway Investment Grade Corporate Bond Index
- S&P Norway Quasi and Foreign Government Bond Index
- S&P Norway Sovereign Bond Index

S&P Canada All Bond Index

- S&P Canada Aggregate Bond Index
- S&P Canada High Yield Corporate Bond Index

S&P Canada Aggregate Bond Index

- S&P Canada Collateralized Bond Index
- S&P Canada Investment Grade Corporate Bond Index
- S&P Canada Provincial & Municipal Bond Index
- S&P Canada Sovereign Bond Index

S&P Canada Government Bond Index

- S&P Canada Sovereign Bond Index
- S&P Canada Provincial & Municipal Bond Index

S&P U.S. Aggregate Bond Index

- S&P Taxable Municipal USD250 Million Par Bond Index
- S&P U.S. Agency Index
- S&P U.S. Covered Bond Index
- S&P U.S. Dollar Global Investment Grade Corporate Bond Index
- S&P U.S. Mortgage-Backed Securities Index
- S&P U.S. Supranational & Foreign Government Bond Index
- S&P U.S. Treasury Bond Index

S&P U.S. Government Bond Index

- S&P U.S. Treasury Bond Index
- S&P U.S. Agency Index

³ Greece and Portugal lost Investment Grade status in May 2010 and December 2011 respectively and were removed from the Global Developed Aggregate Ex-Collateralized Bond Index. Portugal was re-included in the Global Developed Aggregate Ex-Collateralized Bond Index in December 2020.

S&P U.S. Dollar Global High Yield Corporate Bond Index

- U.S. High Yield Corporate Bond Index

S&P U.S. Government & Corporate Bond Index

- S&P U.S. Treasury Bond Index
- S&P U.S. Dollar Investment Grade Corporate Bond Index
- S&P U.S. Agency Index

S&P U.S. Government / Credit Bond Index

- S&P U.S. Treasury Bond Index
- S&P U.S. Agency Index
- S&P Taxable Municipal USD250 Million Par Bond Index
- S&P U.S. Dollar Global Investment Grade Corporate Bond Index
- S&P U.S. Supranational & Foreign Government Bond Index

S&P Asia Pacific Bond Index

- S&P Australia Collateralized Bond Index
- S&P Australia Investment Grade Corporate Bond Index
- S&P Australia Quasi & Foreign Government Bond Index
- S&P Australia Sovereign Bond Index
- S&P Japan Investment Grade Corporate Bond Index
- S&P Japan Quasi & Foreign Government Bond Index
- S&P Japan Sovereign Bond Index
- S&P New Zealand Investment Grade Corporate Bond Index
- S&P New Zealand Quasi & Foreign Government Bond Index
- S&P New Zealand Sovereign Bond Index
- S&P New Zealand Collateralized Bond Index
- S&P South Korea Sovereign Bond Index

S&P Australia Aggregate Bond Index

- S&P Australia Collateralized Bond Index
- S&P Australia Investment Grade Corporate Bond Index
- S&P Australia Quasi & Foreign Government Bond Index
- S&P Australia Sovereign Bond Index

S&P New Zealand Aggregate Bond Index

- S&P New Zealand Collateralized Bond Index
- S&P New Zealand Investment Grade Corporate Bond Index
- S&P New Zealand Quasi & Foreign Government Bond Index
- S&P New Zealand Sovereign Bond Index

S&P Denmark Aggregate Bond Index

- S&P Denmark Sovereign Bond Index
- S&P Denmark Investment Grade Corporate Bond Index
- S&P Denmark Collateralized Bond Index
- S&P Denmark Quasi & Foreign Government Bond Index

Indices calculate if there are eligible bonds.

Supporting Documents

This methodology is meant to be read in conjunction with supporting documents providing greater detail with respect to the policies, procedures and calculations described herein. References throughout the methodology direct the reader to the relevant supporting document for further information on a specific topic. The list of the main supplemental documents for this methodology and the hyperlinks to those documents is as follows:

Supporting Document	URL
S&P Dow Jones Indices' Fixed Income Policies & Practices Methodology	Fixed Income Policies & Practices
S&P Dow Jones Indices' Fixed Income Index Mathematics Methodology	Fixed Income Index Mathematics Methodology
S&P Dow Jones Indices' Global Industry Classification Standard (GICS) Methodology	GICS Methodology

This methodology was created by S&P Dow Jones Indices to achieve the aforementioned objective of measuring the underlying interest of each index governed by this methodology document. Any changes to or deviations from this methodology are made in the sole judgment and discretion of S&P Dow Jones Indices so that the indices continue to achieve their objectives.

Eligibility Criteria

There are four main sector categories eligible for inclusion for each country and currency index: Sovereign, Corporate, Quasi & Foreign Government, and Collateralized. The country section below outlines the sector categories and specific eligibility rules such as currency, minimum par outstanding, data sources, and market of issue.

The countries included in the S&P Global Developed Sovereign Bond Index family are classified by S&P Dow Jones Indices as developed markets. S&P Dow Jones Indices conducts a rigorous country classification process to evaluate the status of global markets.

For more information about country classification as it pertains to index inclusion, please refer to the Country Eligibility chapter of S&P Dow Jones Indices' Fixed Income Policies & Practices Methodology.

S&P Sovereign Indices. The indices measure the performance of debt publicly issued by each sovereign member country in its own native currency in the domestic or Eurobond markets. The sector is subdivided into Bill and Bond.

S&P Corporate Bond Indices. The indices measure the performance of debt issued by any corporation regardless of domicile in the native currency of each country. The sector is subdivided into investment grade and high yield. Corporate securities guaranteed by either a government or government agency are ineligible. U.S. corporate sub-indices employ a country of risk classification for further country-based eligibility criteria. Please see *Index Families* for more information.

S&P Quasi & Foreign Government Bond Indices. The indices measure the performance of debt issued by a government agency, local government, foreign governments, supranational, and corporate securities guaranteed by the government or a government agency, in the native currency of each country. These indices exclude the bonds issued by central governments of countries in their own domestic currency. In some markets indices may be calculated for subdivisions of the sector. For example, in the U.S. there are separate indices for Muni, Agency and Supranational & Foreign Government.

S&P Collateralized Bond Indices. The indices measure the performance of investment grade collateralized debt issued in the native currency of each country. Non-residential mortgage collateralized debt, such as commercial mortgage-backed securities and asset-backed securities, as well as all collateralized mortgage obligations are included in the index. Residential mortgage backed securities are included in the S&P U.S. Aggregate Bond Index. Please refer to *Available Composites* for a listing of indices, including collateralized bond indices.

For S&P Dow Jones Indices' current list of developed and emerging market countries, please refer to the Country Eligibility section of S&P Dow Jones Indices' Fixed Income Policies & Practices Methodology.

General Eligibility Factors

Country and Market of Issue. Sovereign Bonds must be debt issued by the central governments of each country and must be issued in the domestic or Eurobond markets. Other Bonds (non-sovereign bonds) have no restrictions on the issuer's country of domicile and must be issued in the domestic or Eurobond markets.

Currency. Sovereign bonds must be issued in the domestic currency of the issuer. Other bonds must be issued in the native currency of each country.

Coupon Type. The following coupon types are eligible:

- Fixed Rate
- Step-up
- Zero Coupon
- Fixed-to-Float

Optionality. Bullets, callable and puttable securities are included. Fixed-to-floating rate securities qualify if they are in the fixed phase and have at least one month until the date they transition to floating.

Exclusions. The following bond types are specifically excluded from the index:

- Bills
- Sukuk bonds
- Floating-rate instruments
- Convertible bonds⁵
- STRIPS
- Inflation-linked instruments
- Sinkable bonds⁴

Global Receipts. For U.S. corporate bonds, if both a domestic issuance and global receipt from a foreign issuer are available, the index will include the global receipt.

Maturity. The maturity date must be greater than one month from the rebalancing date. No bond matures in the index.

Settlement. Bonds issued up to the rebalancing reference date (regardless of the settlement date). Standard index settlement convention is same-day (e.g., T+0), unless otherwise specified. For month-ends that fall on a weekend, the interest accrued during the month will be reflected within the calendar month, regardless of settlement convention. For rates that are not available at month-end (e.g., a rate with an unknown reset), the accrual will be based on the current rate andpan adjusted the first business day of the next month.

Credit Rating Quality. Criteria are as follows:

- **New Issues.** New issues must be rated by at least one rating agency (S&P, Moody's, or Fitch) to be considered at the next rebalancing.
- **Non-rated and Defaulted Bonds.** Bonds that are no longer rated or have defaulted are removed at the next rebalancing.
- **Investment Grade.** The minimum credit rating for inclusion is BBB-/Baa3/BBB-. The lowest of all available ratings (S&P, Moody's, and Fitch) is used as the index rating.
- **High Yield.** The maximum credit rating for inclusion is BB+/Ba1/BB+. The lowest of all available ratings (S&P, Moody's, and Fitch) is used as the index rating.

The issuer rating may be applied in place of the bond level ratings. For example, a sovereign bond index may apply the long term foreign currency issuer rating in place of each sovereign bond issue.⁶

For ratings-based sub-indices, the above rules are applied to the appropriate ratings band.

Pricing. Bid side pricing – LSEG.⁷ Bonds not priced by the designated pricing source are ineligible for index inclusion.

For information on price capture times, please refer to Appendix C of S&P Dow Jones Indices' Fixed Income Policies & Practices Methodology.

⁴ Sinkable bonds are only excluded in the S&P Asia Pacific Bond Indices.

⁵ Bonds with convertible features (including Contingent Convertibles) are excluded from the indices.

⁶ Prior to July 2016, S&P issuer credit ratings were used to determine sovereign ratings in the S&P Global Developed Aggregate Ex-Collateralized Bond Index.

⁷ J.P. Morgan Securities LL prices mortgage-backed securities; Securities Evaluations | ICE Data Services prices taxable municipal bonds.

Country/Region-Specific Eligibility Factors

Additional index-specific currency of issue, minimum notional outstanding, and market of issue eligibility factors for certain indices.

S&P Asia Pacific Countries

	Currency	Market of Issue	Sovereign	IG Corporate	Quasi & Foreign	Collateralized	HY Corporate
Australia	AUD	Domestic or Eurobond	1bn	250mm	250mm	250mm	100mm
Hong Kong	HKD		300mm	300mm	300mm	--	--
Japan	JPY		100bn	20bn	20bn	--	--
New Zealand	NZD		1bn	100mm	100mm	100mm	--
Singapore	SGD		1.5bn	100mm	--	--	--

Eurozone (Euro Monetary Union). The Eurozone is comprised of both developed and emerging market member nations that have adopted the euro as the national currency. While the sovereign markets are defined in the context of country membership, the Investment Grade Corporate and Quasi & Foreign Government indices are based on issuance in the common currency.

S&P Israel Sovereign Bond Index	ILS	1bn	Domestic or Eurobond
---------------------------------	-----	-----	----------------------------

Index-Specific Eligibility Factors

S&P Global Developed Sovereign Bond Indices. For all applicable countries, government holdings are excluded in determining par amount outstanding for index eligibility purposes.

S&P Global Developed Corporate Infrastructure Bond Index. To be eligible, securities in the S&P Global Developed Corporate Bond Index must satisfy at least one of the following criteria:

1. Bonds issued by issuers classified as part of the following Global Industry Classification Standard (GICS) sub-industries:

GICS Code	GICS Sub-Industry
55101010	Electric Utilities
55103010	Multi-Utilities
10102040	Oil & Gas Storage & Transportation
55102010	Gas Utilities
55104010	Water Utilities
20305010	Airport Services
20305020	Highways & Railtracks
20305030	Marine Ports & Services

2. Bonds issued by constituents of the Dow Jones Brookfield Global Infrastructure Composite Index.

S&P Global Developed Corporate Infrastructure Bond Select Min Par Index. To be eligible for index inclusion in this index, S&P Global Developed Corporate Infrastructure Bond Index constituents must satisfy the following:

FX	Minimum Par Amount	FX	Minimum Par Amount	FX	Minimum Par Amount
USD	500,000,000	JPY	40,000,000,000	SEK	5,000,000,000
CAD	500,000,000	GBP	500,000,000	DKK	5,000,000,000
EUR	500,000,000	HKD	6,000,000,000	KRW	2,000,000,000,000
AUD	500,000,000	NOK	5,000,000,000	ILS	2,000,000,000
CHF	500,000,000	NZD	500,000,000	SGD	500,000,000

S&P Solvency II Capital Efficiency Corporate Bond Index. The index is a subindex of the S&P Global Developed Corporate Infrastructure Bond Select Min Par Index. Solvency II eligibility is subject to a monthly and an annual independent assessment made by Deloitte Tax & Consulting S.à r.l. Eligibility as Qualifying Infrastructure Company Investment ("QICI") is based on a series of criteria defined by the EU Commission Delegated Regulation 2016/467, and EU Commission Delegated Regulation 2017/1542. The criteria for the assessment include infrastructure and location, cash flow stability, investors protection, and risk of default. Further information can be found here: <https://eur-lex.europa.eu/legal-content/EN/TXT/PDF/?uri=CELEX:32017R1542&from=DE>.

The monthly assessment reviews new issuers in the S&P Global Developed Corporate Infrastructure Bond Select Min Par Index to determine if they satisfy the eligible criteria under Solvency II. Securities from issuers that meet the Solvency II eligibility will enter the index if all other criteria are met as at the rebalance reference date.

The annual assessment will review all issuers of the S&P Global Developed Corporate Infrastructure Bond Select Min Par Index to determine their current Solvency II eligibility. The results of the annual assessment are implemented with the August monthly rebalancing and made effective during September compositions.

Index Construction

Index Calculations

Except for the Dow Jones Equal Weight U.S. Issued Corporate Bond Index, and S&P U.S. Catholic Values Aggregate Bond Index, the indices are market value weighted.

- **Dow Jones Equal Weight U.S. Issued Corporate Bond Index.** At each rebalancing the index is equal-weighted.
- **S&P U.S. Catholic Values Aggregate Bond Index.** At each rebalancing, the index weights are assigned as follows:
 - Sector weights for the 11 Corporate GICS sectors are matched to the corresponding GICS sector weights in the S&P U.S. Aggregate Bond Index.
 - Non-corporate bonds are re-weighted proportionally to maintain the index's original market value.

The total return is calculated by aggregating the interest return, reflecting the return due to paid and accrued interest, and price return, reflecting the gains or losses due to changes in end-of-day price and principal repayments.

For further details regarding Index Calculations, please refer to S&P Dow Jones Indices' Fixed Income Index Mathematics Methodology.

Index Maintenance

Rebalancing

The indices are reviewed and rebalanced according to the schedule in the table below. The Index Committee, nevertheless, reserves the right to make adjustments to an index at any time that it believes appropriate.

Rebalancing Schedule	
Rebalancing Frequency	Monthly
Rebalancing Date	Last day of the rebalancing period (T)
Announcement Date	T minus 3
Reference Date	T minus 4

All days reflect after the close and count business days

Additions, deletions and other changes to the index arising from the rebalancing are made provided the security's reference information and pricing are available by designated pricing and data providers on the rebalancing reference date. Changes to the index are published on the announcement date and become effective on the rebalancing date. Information related to the rebalancing is obtained and disseminated after the close of business.

Ongoing Maintenance

For more information on treatment of defaults or lack of daily price data, please refer to the Defaults section of S&P Dow Jones Indices' Fixed Income Policies & Practices Methodology.

S&P Solvency II Capital Efficiency Corporate Bond Index. Each issuer in the index is reviewed annually for ongoing eligibility. New additions to the S&P Global Developed Infrastructure Bond Select Min Par Index are reviewed at the monthly rebalancing.

Currency of Calculation and Additional Index Return Series

The indices are calculated in their respective local currencies. Certain indices are also available in U.S. dollars or U.S. dollar-hedged versions.

WMR foreign exchange rates are taken daily at 4:00 PM London Time and used in the calculation of the indices. These mid-market fixings are calculated by WMR based on LSEG data and appear on LSEG pages.⁹

Additional currency and currency hedged versions of the indices, as well as maturity, sector and rating-based sub-indices may be available. For a list of available sub-indices and tickers, please refer to S&P Dow Jones Indices' Fixed Income Index Directory available at www.spglobal.com/spdji/.

For more information on currency and currency hedged indices, please refer to S&P Dow Jones Indices' Fixed Income Index Mathematics Methodology.

Base Dates and History Availability

Index history availability, base dates, and base values are shown in the table below.

⁹ For the S&P US Treasury Bond 7-10 Year Index (TTM JPY Hedged) and the S&P US Treasury Bond 7-10 Year Index (TTM JPY), the Tokyo 11:00 AM TTM spot rates of the following business day are used in the calculation.

Index	Launch Date	First Value Date	Base Date	Base Value

Index Governance

Index Committee

An Index Committee maintains the indices. All committee members are full-time professionals at S&P Dow Jones Indices. Meetings are held regularly. The Index Committee oversees the management of the indices, including determinations of intra-rebalancing changes, maintenance and inclusion policies, and other matters affecting the maintenance and calculation of the indices.

In fulfilling its responsibilities, the Index Committee has full and complete discretion to (i) amend, apply, or exempt the application of index rules and policies as circumstances may require and (ii) add, remove, or by-pass any bond in determining the composition of an index.

The Index Committee may rely on any information or documentation submitted to it or gathered by it that the Index Committee believes to be accurate. The Index Committee reserves the right to reinterpret publicly available information and to make changes to the indices based on a new interpretation of that information at its sole discretion. All Index Committee discussions are confidential.

The Index Committee is separate from and independent of other analytical groups at S&P Global. In particular, the Index Committee has no access to or influence on decisions by S&P Global Ratings analysts.

S&P Dow Jones Indices' Index Committees reserve the right to make exceptions when applying the methodology if the need arises. In any scenario where the treatment differs from the general rules stated in this document or supplemental documents, clients will receive sufficient notice, whenever possible.

In addition to the daily governance of indices and maintenance of index methodologies, at least once within any 12-month period, the Index Committee reviews the methodology to ensure the indices continue to achieve the stated objectives, and that the data and methodology remain effective. In certain instances, S&P Dow Jones Indices may publish a consultation inviting comments from external parties.

For information on Quality Assurance and Internal Reviews of Methodology, please refer to S&P Dow Jones Indices' Fixed Income Policies & Practices Methodology.

Index Policy

Announcements

Global and regional announcements of any relevant information pertaining to the indices are made after the close of business. Press releases are posted on the S&P Dow Jones Indices Web site at www.spglobal.com/spdji/.

Holiday Schedule

Global indices are calculated on all business days of the year (Monday through Friday) except New Year's Day (January 1st).

For regional and sub-index holiday schedules, a complete holiday schedule for the year is available on S&P Dow Jones Indices' Web site at www.spglobal.com/spdji/.

Rebalancing

The Index Committee may change the date of a given rebalancing for reasons including market holidays occurring on or around the scheduled rebalancing date. Any such change will be announced with proper advance notice where possible.

End-of-Day Calculation

Index levels are calculated at the end of each business day, via S&P Dow Jones Indices' Web site. This may be subject to change.

Recalculation Policy

For information on the recalculation policy please refer to S&P Dow Jones Indices' Fixed Income Policies & Practices Methodology.

For information on Calculations and Pricing Disruptions, Expert Judgment and Data Hierarchy, please refer to S&P Dow Jones Indices' Fixed Income Policies & Practices Methodology.

Contact Information

For questions regarding an index, please contact: index_services@spglobal.com.

Index Dissemination

Index levels are available through S&P Dow Jones Indices' Web site at www.spglobal.com/spdji/, major quote vendors (see codes below), numerous investment-oriented Web sites, and various print and electronic media. Daily index levels and index data are available via subscription.

Tickers

The table below lists headline indices covered by this document. All versions of the below indices that may exist are also covered by this document. Please refer to the [S&P DJI Methodology & Regulatory Status Database](#) for a complete list of indices covered by this document.

Appendix A

S&P U.S. Treasury Bond Current 30-Year & 10-Year 70/30 Blend Index (USD) (Custom)

Index Objective. The index measures the performance of a duration-matching target of the component indices plus a fixed cash component. The duration-matching target weights the component indices as indicated in the table below, then applies an adjustment factor of 0.82. The cash component is a total return target of 5.5% added as a premium.¹⁰

Component Indices

Index Name	Index Code	Weight
S&P U.S. Treasury Bond Current 30-Year Index	SPBDU3B	70%
S&P U.S. Treasury Bond Current 10-Year Index	SPBDU1B	30%
Cash Index with a Fixed 5.5% Premium	--	--

Index Calculation

$$CashAccrual(t) = CashAccrual(t - 1) * \left((1 + Premium)^{\left(\frac{D_t - D_{t-1}}{N} \right)} \right)$$

$$Parent(t) = Parent(rb) * \left(1 + .7 * \left(\frac{SPBDU3B(t)}{SPBDU3B(rb)} - 1 \right) + .3 * \left(\frac{SPBDU1B(t)}{SPBDU1B(rb)} - 1 \right) \right)$$

$$Index(t) = Index(rb) * \left(1 + 0.82 * \left(\frac{Parent(t)}{Parent(rb)} - 1 \right) + \left(\frac{CashAccrual(t)}{CashAccrual(rb)} - 1 \right) \right)$$

where:

N = 365

$Premium$ = +5.5%

D = Date

t = The current day

rb = The last business day of the previous month

For more information on the index calculation, please refer to the Weighted Return section of S&P Dow Jones Indices' Index Mathematics Methodology.

Currency of Calculation. The index calculates in U.S. dollars.

Rebalancing. The index rebalances monthly, effective after the close of the last business day of each month. The weights of Parent and CashAccrual exposure reset based on the above formula.

¹⁰ For history prior to 05/31/2023, the duration-matching target was not included in the calculation of the index.

Appendix B

Methodology Changes

Methodology changes since January 1, 2015, are as follows:

Change	Effective Date (After Close)	Methodology	
		Previous	Updated
Data Source: S&P U.S. Mortgage-Backed Securities Index	02/29/2024	Interactive Data Corporation prices mortgage-backed securities.	J.P. Morgan Securities LLC prices mortgage-backed securities.
Index Name: S&P/BVL Peru Sovereign Bond Index	10/07/2021	The index name was S&P Peru Sovereign Bond Index.	The index name is S&P/BVL Peru Sovereign Bond Index.
Eligible Debt Type: S&P U.S. Dollar Global Investment Grade Corporate Bond Index	05/03/2021	Within the eligible debt type, Depository Receipts are excluded.	Within the eligible debt type, Depository Receipts are included.
Eligible Debt Type: S&P U.S. Dollar Global High Yield Corporate Bond Index	05/03/2021	Within the eligible debt type, Surplus Notes are excluded.	Within the eligible debt type, Surplus Notes are included.
Contingent Convertibles	09/30/2020	--	Contingent Convertible bonds are excluded from the index.
Index Name: S&P U.K. Gilt Index	07/24/2020	The index name was S&P U.K. Gilt Bond Index.	The index name is S&P U.K. Gilt Index.
Foreign Exchange Rate used in the End-of-Day Calculation of the Indices: S&P Japan Sovereign 20+ Year Bond Index (AUD) and S&P Japan Sovereign 20+ Year AUD Hedged Bond Index	06/30/2020	WM/Reuters spot foreign exchange rates are taken daily at 5:00 AM London Time and used in the end-of-day calculation	WM/Reuters spot foreign exchange rates are taken daily at 4:00 PM London Time and used in the end-of-day calculation
Minimum Par Amount Outstanding change: S&P Peru Sovereign Bond Index	12/31/2019	A minimum par amount outstanding of PEN 500 million, on the rebalancing reference date, is required for index eligibility.	A minimum par amount outstanding of PEN 100 million, on the rebalancing reference date, is required for index eligibility.
Taxable Municipal Bond Sub-index Component Change: S&P U.S. Aggregate Bond Index, S&P U.S. Government / Credit Bond Index, and S&P Global Developed Aggregate Ex-Collateralized Bond Index (USD)	09/30/2019	The Taxable Municipal Bond sub-index component was the S&P Taxable Municipal Bond Select Index.	The Taxable Municipal Bond sub-index component is the S&P Taxable Municipal USD250 Million Par Bond Index.
Eligible Bonds: S&P Asia Pacific Bond Indices	08/30/2019	Sinkable bonds were included.	Sinkable bonds are excluded.
Rebalancing Reference Date: U.S. Corporate Bond Indices	03/29/2019	The rebalancing reference date is three days prior to market close of the last business day of the previous month (t-3).	The rebalancing reference date is four days prior to market close of the last business day of the previous month (t-4).
Treatment of Corporate Securities Guaranteed by Government or Government Agency	09/01/2018	Corporate securities are eligible for corporate indices regardless of their guarantor.	Corporate securities guaranteed by government or government agency are only eligible for quasi & foreign government indices.
Exclusion of Government Holdings from Par Amount	06/29/2018	Government holdings are included in determining par amount	Government holdings are excluded in determining par amount

Change	Effective Date (After Close)	Methodology	
		Previous	Updated
Outstanding for Index Eligibility Purposes: S&P Global Developed Sovereign Bond Indices		outstanding for index eligibility purposes.	outstanding for index eligibility purposes, where applicable.
Eligible Bonds: S&P U.S. Aggregate Bond Index and S&P U.S. Supranational & Foreign Government Bond Index	01/31/2018	The index included Supranational and Foreign Government bonds denominated in USD.	The index includes Supranational, Foreign Government, and Foreign Agency bonds denominated in USD.
Component Index Change: S&P U.S. Aggregate Bond Index and S&P Global Developed Aggregate Ex-Collateralized Bond Index (USD)	07/31/2017	The U.S. investment grade component was the S&P U.S. Investment Grade Corporate Bond Index II.	The U.S. investment grade component is the S&P U.S. Dollar Global Investment Grade Corporate Bond Index.
Foreign Exchange Rates: Asia Pacific indices and S&P Global Developed Sovereign Ex-U.S. Bond Index (USD Hedged)	05/31/2017	For end-of-day index calculation, the indices used Reuters spot foreign exchange rates taken at 4:15 PM Sydney time.	For end-of-day index calculation, the indices used WM/Reuters spot foreign exchange rates taken at 4:00 PM London time.
Country Criteria for Index Eligibility: S&P U.S. High Yield Corporate Bond Index	02/28/2017	Country criteria were based on country of domicile.	Country criteria are based on country of risk.
Change of Australian sub-index component: S&P Global Developed Sovereign Bond Index	12/30/2016	The Australian sub-index component was the S&P/ASX Australian Government Bond Index.	The Australian sub-index component is the S&P Australia Sovereign Bond Index.
Index Name Change: S&P/BG Cantor U.S. Treasury Bond Index	07/01/2016	The index name was S&P/BG Cantor U.S. Treasury Bond Index.	The index name is S&P U.S. Treasury Bond Index.
Par Amounts: S&P/BG Cantor U.S. Treasury Bond Index	07/01/2016	Par amounts were adjusted to reflect the amount of "stripped" securities of a given issue during the month.	Par amounts are no longer adjusted to reflect the amount of "stripped" securities of a given issue during the month.
Pricing Source: U.S. Treasury, Agency and Covered Indices	07/01/2016	The pricing source for U.S. Treasury indices was BG Cantor. The pricing source for U.S. Agency and Covered indices was SPSE.	The pricing source for Treasury, Agency and Covered indices is Thomson Reuters.
Rebalancing Reference and Announcement Dates: U.S. Treasury, Agency and Covered Indices	07/01/2016	Rebalancing Reference and Announcement Dates were T-2 and T-1, respectively.	Rebalancing Reference and Announcement Dates are T-4 and T-3, respectively.
Additional Component Index: S&P U.S. Aggregate Bond Index	03/31/2016	The index was comprised of constituents of the following indices: <ul style="list-style-type: none"> • S&P/BG Cantor U.S. Treasury Bond Index • S&P U.S. Agency Index • S&P Taxable Municipal Bond Select Index • S&P U.S. Covered Bond Index • S&P U.S. Investment Grade Corporate Bond Index • S&P U.S. Mortgage-Backed Securities Index 	The index is comprised of constituents of the following indices: <ul style="list-style-type: none"> • S&P/BG Cantor U.S. Treasury Bond Index • S&P U.S. Agency Index • S&P U.S. Supranational & Foreign Government Bond Index • S&P Taxable Municipal Bond Select Index • S&P U.S. Covered Bond Index • S&P U.S. Investment Grade Corporate Bond Index • S&P U.S. Mortgage-Backed Securities Index

Change	Effective Date (After Close)	Previous	Methodology Updated
Change of Australian sub-index component: S&P Global Developed Sovereign Bond Index	09/01/2015	The Australian sub-index component was the S&P/ASX Government Bond Index.	The Australian sub-index component is the S&P/ASX Australian Government Bond Index.

Disclaimer

Performance Disclosure/Back-Tested Data

Where applicable, S&P Dow Jones Indices and its index-related affiliates (“S&P DJI”) defines various dates to assist our clients by providing transparency. The First Value Date is the first day for which there is a calculated value (either live or back-tested) for a given index. The Base Date is the date at which the index is set to a fixed value for calculation purposes. The Launch Date designates the date when the values of an index are first considered live: index values provided for any date or time period prior to the index’s Launch Date are considered back-tested. S&P DJI defines the Launch Date as the date by which the values of an index are known to have been released to the public, for example via the company’s public website or its data feed to external parties. For Dow Jones-branded indices introduced prior to May 31, 2013, the Launch Date (which prior to May 31, 2013, was termed “Date of introduction”) is set at a date upon which no further changes were permitted to be made to the index methodology, but that may have been prior to the Index’s public release date.

Please refer to the methodology for the Index for more details about the index, including the manner in which it is rebalanced, the timing of such rebalancing, criteria for additions and deletions, as well as all index calculations.

Information presented prior to an index’s launch date is hypothetical back-tested performance, not actual performance, and is based on the index methodology in effect on the launch date. However, when creating back-tested history for periods of market anomalies or other periods that do not reflect the general current market environment, index methodology rules may be relaxed to capture a large enough universe of securities to simulate the target market the index is designed to measure or strategy the index is designed to capture. For example, market capitalization and liquidity thresholds may be reduced. In addition, forks have not been factored into the back-test data with respect to the S&P Cryptocurrency Indices. For the S&P Cryptocurrency Top 5 & 10 Equal Weight Indices, the custody element of the methodology was not considered; the back-test history is based on the index constituents that meet the custody element as of the Launch Date. Also, the treatment of corporate actions in back-tested performance may differ from treatment for live indices due to limitations in replicating index management decisions. Back-tested performance reflects application of an index methodology and selection of index constituents with the benefit of hindsight and knowledge of factors that may have positively affected its performance, cannot account for all financial risk that may affect results and may be considered to reflect survivor/look ahead bias. Actual returns may differ significantly from, and be lower than, back-tested returns. Past performance is not an indication or guarantee of future results.

Typically, when S&P DJI creates back-tested index data, S&P DJI uses actual historical constituent-level data (e.g., historical price, market capitalization, and corporate action data) in its calculations. As ESG investing is still in early stages of development, certain datapoints used to calculate certain ESG indices may not be available for the entire desired period of back-tested history. The same data availability issue could be true for other indices as well. In cases when actual data is not available for all relevant historical periods, S&P DJI may employ a process of using “Backward Data Assumption” (or pulling back) of ESG data for the calculation of back-tested historical performance. “Backward Data Assumption” is a process that applies the earliest actual live data point available for an index constituent company to all prior historical instances in the index performance. For example, Backward Data Assumption inherently assumes that companies currently not involved in a specific business activity (also known as “product involvement”) were never involved historically and similarly also assumes that companies currently involved in a specific business activity were involved historically too. The Backward Data Assumption allows the hypothetical back-test to be extended over more historical years than would be feasible using only actual data. For more information on “Backward Data Assumption” please refer to the FAQ. The methodology and factsheets of any index that employs backward assumption in the back-tested history will explicitly state so. The methodology will include an Appendix with a table setting forth the specific data points and relevant time period for which backward projected data was used. Index returns shown do not represent the results of actual trading of investable assets/securities. S&P DJI maintains the index and calculates the index levels and performance shown or discussed but does not manage any assets.

Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the Index or investment funds that are intended to track the performance of the Index. The imposition of these fees and charges would cause actual and back-tested performance of the securities/fund to be lower than the Index performance shown. As a simple example, if an index returned 10% on a US \$100,000 investment for a 12-month period (or US \$10,000) and an actual asset-based fee of 1.5% was imposed at the end of the period on the investment plus accrued interest (or US \$1,650), the net return would be 8.35% (or US \$8,350) for the year. Over a three-year period, an annual 1.5% fee taken at year end with an assumed 10% return per year would result in a cumulative gross return of 33.10%, a total fee of US \$5,375, and a cumulative net return of 27.2% (or US \$27,200).

While S&P DJI has obtained information from sources it believes to be reliable, S&P DJI does not perform an audit or undertake independent verification of any information it receives. S&P DJI reserves the right to vary or discontinue any index at any time for regulatory or other reasons. Various factors, including external factors beyond S&P DJI's control might necessitate material changes to indices.

To the extent that regulatory authorities allow a rating agency to acknowledge in one jurisdiction a rating issued in another jurisdiction for certain regulatory purposes, S&P Global Ratings reserves the right to assign, withdraw or suspend such acknowledgement at any time and in its sole discretion. S&P Dow Jones Indices, including S&P Global Ratings, disclaim any duty whatsoever arising out of the assignment, withdrawal, or suspension of an acknowledgement as well as any liability for any damage alleged to have been suffered on account thereof. Affiliates of S&P Dow Jones Indices LLC, including S&P Global Ratings, may receive compensation for its ratings and certain credit-related analyses, normally from issuers or underwriters of securities or from obligors. Such affiliates of S&P Dow Jones Indices LLC, including S&P Global Ratings, reserve the right to disseminate its opinions and analyses. Public ratings and analyses from S&P Global Ratings are made available on its Web sites, www.standardandpoors.com (free of charge), and www.ratingsdirect.com and www.globalcreditportal.com (subscription), and may be distributed through other means, including via S&P Global Ratings publications and third-party redistributors. Additional information about our ratings fees is available at www.standardandpoors.com/usratingsfees.

S&P Global keeps certain activities of its various divisions and business units separate from each other to preserve the independence and objectivity of their respective activities. As a result, certain divisions and business units of S&P Global may have information that is not available to other business units. S&P Global has established policies and procedures to maintain the confidentiality of certain nonpublic information received in connection with each analytical process.

In addition, S&P Dow Jones Indices provides a wide range of services to, or relating to, many organizations, including issuers of securities, investment advisers, broker-dealers, investment banks, other financial institutions, and financial intermediaries, and accordingly may receive fees or other economic benefits from those organizations, including organizations whose securities or services they may recommend, rate, include in model portfolios, evaluate, or otherwise address.

Some indices use the Global Industry Classification Standard (GICS®), which was developed by, and is the exclusive property and a trademark of, S&P Global and MSCI. Neither MSCI, S&P DJI nor any other party involved in making or compiling any GICS classifications makes any express or implied warranties or representations with respect to such standard or classification (or the results to be obtained by the use thereof), and all such parties hereby expressly disclaim all warranties of originality, accuracy, completeness, merchantability, or fitness for a particular purpose with respect to any of such standard or classification. Without limiting any of the foregoing, in no event shall MSCI, S&P DJI, any of their affiliates or any third party involved in making or compiling any GICS classifications have any liability for any direct,

indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

S&P Dow Jones Indices products are governed by the terms and conditions of the agreements under which they may be provided. A license is required from S&P Dow Jones Indices to display, create derivative works of and/or distribute any product or service that uses, is based upon and/or refers to any S&P Dow Jones Indices and/or index data.

ESG Indices Disclaimer

S&P DJI provides indices that seek to select, exclude, and/or weight index constituents based on, but not limited to, certain environmental, social or governance (ESG) indicators, or a combination of those indicators, including the following: environmental indicators (including the efficient use of natural resources, the production of waste, greenhouse gas emissions, or impact on biodiversity); social indicators (such as, inequality and investment in human capital); governance indicators (such as sound management structures, employee relations, remuneration of staff, tax compliance, respect for human rights, anti-corruption and anti-bribery matters), specific sustainability or values-related company involvement indicators (for example, production/distribution of controversial weapons, tobacco products, or thermal coal), or controversies monitoring (including research of media outlets to identify companies involved in ESG-related incidents).

S&P DJI ESG indices use ESG metrics and scores in the selection and/or weighting of index constituents. ESG scores or ratings seek to measure or evaluate a company's, or an asset's, performance with respect to environmental, social and corporate governance issues.

The ESG scores, ratings, and other data used in S&P DJI ESG indices is supplied directly or indirectly by third parties (note these parties can be independent affiliates of S&P Global or unaffiliated entities) so an S&P DJI ESG index's ability to reflect ESG factors depends on these third parties' data accuracy and availability.

ESG scores, ratings, and other data may be reported (meaning that the data is provided as disclosed by companies, or an asset, or as made publicly available), modelled (meaning that the data is derived using a proprietary modelling process with only proxies used in the creation of the data), or reported and modelled (meaning that the data is either a mix of reported and modelled data or is derived from the vendor using reported data /information in a proprietary scoring or determination process).

ESG scores, ratings, and other data, whether from an external and/or internal source, is based on a qualitative and judgmental assessment, especially in the absence of well-defined market standards, and due to the existence of multiple approaches and methodologies to assess ESG factors and considerations. An element of subjectivity and discretion is therefore inherent in any ESG score, rating, or other data and different ESG scoring, rating, and/or data sources may use different ESG assessment or estimation methodologies. Different persons (including ESG data ratings, or scoring providers, index administrators or users) may arrive at different conclusions regarding the sustainability or impact of a particular company, asset, or index.

Where an index uses ESG scores, ratings or other data supplied directly or indirectly by third parties, S&P DJI does not accept responsibility for the accuracy or completeness of such ESG scores, ratings, or data.

No single clear, definitive test or framework (legal, regulatory, or otherwise) exists to determine 'ESG', 'sustainable', 'good governance', 'no adverse environmental, social and/or other impacts', or other equivalently labelled objectives. In the absence of well-defined market standards and due to the existence of multitude approaches, the exercise of judgment is necessary. Accordingly, different persons may classify the same investment, product and/or strategy differently regarding 'ESG', 'sustainable', 'good governance', 'no adverse environmental, social and/or other impacts', or other equivalently labelled objectives. Furthermore, the legal and/or market position on what constitutes an 'ESG', 'sustainable', 'good governance', 'no adverse environmental, social and/or other impacts', or other equivalently labelled

objectives may change over time, especially as further regulatory or industry rules and guidance are issued and the ESG sustainable finance framework becomes more sophisticated.

Prospective users of an S&P DJI ESG Index are encouraged to read the relevant index methodology and related disclosures carefully to determine whether the index is suitable for their potential use case or investment objective.
