Introduction

Index Objective

The S&P/ASX Australian Bond Index Series is a benchmark index family designed to measure the market value weighted performance of the Australian bond market. The series meets certain investability criteria. It includes an Australian Bank Bill Index, which measures the performance of the Australian short-term money market, and an Australian Inflation-linked Bond Index, which measures the performance of the Australian inflation-linked bond market.

Partnership

Together with the S&P/ASX index family, the S&P/ASX 200 was launched in the Australian market in April 2000. The launch of these indices coincided with S&P Dow Jones Indices taking over the index business, formerly owned and managed by the Australian Securities Exchange (ASX).

The S&P/ASX Australian Bond Index Series is designed for use by institutional investment managers, managed and superannuation funds, and professional advisors.

Index Family

The following composite indices are calculated:

- **S&P/ASX Australian Fixed Interest 0+ Index**. The index measures the performance of the Australian fixed rate bond market. It is a broad, market value weighted benchmark split across investment grade, Australian dollar denominated bonds issued in the local market.
 - S&P/ASX Government Bond 0+ Index. The index is designed to measure the performance of the government bond market. The index includes all securities in the S&P/ASX Australian Government Bond 0+ Index and the S&P/ASX State Government Bond 0+ Index, excluding inflation-linked bonds.
 - S&P/ASX Australian Government Bond 0+ Index. The index is comprised of bonds issued by the Australian Government (Treasury bonds) which meet the criteria detailed in Eligibility Criteria.
 - S&P/ASX State Government Bond 0+ Index. The index is comprised of bonds issued by Australian state governments and territories which meet the criteria detailed in Eligibility Criteria.
 - S&P/ASX Corporate Bond 0+ Index. The index is comprised of investment grade bonds issued by Australian corporations and Kangaroo bond issues which meet the criteria detailed in *Eligibility Criteria*.
 - S&P/ASX Supranational and Sovereign Bond 0+ Index. The index is comprised of supranational and sovereign bonds. Supranational bonds are defined as those issued by entities formed by two or more central governments to promote economic development for the member countries (e.g. the European Investment Bank and the Asian Development Bank). Sovereign bonds include sovereign guaranteed securities with an explicit government guarantee or support from the sovereign, principal or state government which meet the criteria detailed in *Eligibility Criteria*.
 - S&P/ASX Covered Bond 0+ Index. The index is designed to measure the performance of the Australian investment grade covered bond market.

- S&P/ASX High Yield Corporate Bond 0+ Index and S&P/ASX High Yield Expanded
 Corporate Bond Ex Banks Index. The indices measure the performance of Australian dollar
 denominated high yield corporate bonds issued in the Australian market. The S&P/ASX High
 Yield Corporate Bond 0+ Index is comprised of high yield bonds issued by Australian
 corporations and Kangaroo bond issues which meet the criteria detailed in Eligibility Criteria. The
 S&P/ASX High Yield Expanded Corporate Bond Ex Banks Index is comprised of high yield bonds
 issued by Australian corporations excluding banks which meet the criteria detailed in Eligibility
 Criteria.
- S&P/ASX Corporate Issuer Equal Weight Bond Index. The index is comprised of the top 50 ultimate issuers by total market value in the S&P/ASX Corporate Bond Index. Each ultimate issuer within the index is allocated a 2% weight at each semi-annual rebalancing.
- S&P/ASX Government Inflation-Linked Bond 0+ Index. The index is comprised of inflation-linked bonds issued by the Australian Government or agencies which meet the criteria detailed in *Eligibility Criteria*. The constituents of this index are excluded from the S&P/ASX Government Bond 0+ Index.
 - S&P/ASX Australian Government Inflation-Linked Bond 0+ Index. The index is comprised of inflation-linked bonds issued by the Australian Government which meet the criteria detailed in *Eligibility Criteria*. The constituents of this index are excluded from the S&P/ASX Australian Government Bond 0+ Index.
- S&P/ASX Fixed Interest 0+ Ex-Government Bond Index. The index is a broad benchmark designed to measure the performance of the Australian bond market, excluding government bonds. It is comprised of bonds issued by Australian corporations, supranational issuers, sovereign issuers, Kangaroo bonds, Australian government-backed corporate debt, and debt issued by foreign agencies. It excludes bonds from the Australian Commonwealth Government, state governments, territories and semi-government issuers.
- S&P/ASX Fixed Interest 0+ Ex-Supranational and Sovereign Bond Index. The index is a broad benchmark designed to measure the performance of the Australian bond market, excluding supranational and sovereign bonds. It is comprised of bonds issued by the Australian Commonwealth Government, state governments, territories, semi-government issuers, Australian corporations and Kangaroo bonds. It excludes supranational issuers, sovereign issuers, Australian government-backed corporate debt, and debt issued by foreign agencies.
- **S&P/ASX Bank Bill Index.**¹ The index offers short term exposure to Australian dollar-denominated bank bills with maturity profiles of up to three months.

Supporting Documents

This methodology is meant to be read in conjunction with supporting documents providing greater detail with respect to the policies, procedures and calculations described herein. References throughout the methodology direct the reader to the relevant supporting document for further information on a specific topic. The list of the main supplemental documents for this methodology and the hyperlinks to those documents is as follows:

Eligibility Criteria

Eligibility Factors

Eligible Issuers. Eligible issuers are described in the table below.

Index	Issuer
S&P/ASX Australian Fixed Interest 0+ Index	The issuer must be the Australian Government, state governments, Australian corporations, sovereign issuers, supranational issuers and foreign agency issuers. In addition, Australian government-backed corporate debt, Kangaroo bond issues and all other constituents of the component indices are eligible.
S&P/ASX Government Bond 0+ Index	The issuer must be the Australian Government, state governments, territories, or semi-government issuers.
S&P/ASX Australian Government Bond 0+ Index	The issuer must be the Australian Government.
S&P/ASX State Government Bond 0+ Index	The issuer must be an Australian state government or territory.
S&P/ASX Corporate Bond 0+ Index	The issuer must be an Australian corporation. In addition, Kangaroo bond issues are eligible.
S&P/ASX High Yield Corporate Bond 0+ Index	The issuer must be an Australian corporation. In addition, Kangaroo bond issues are eligible.
S&P/ASX High Yield Expanded Corporate Bond Ex Banks Index	The issuer must be an Australian corporation, excluding banks and mortgage banks.
S&P/ASX Supranational and Sovereign Bond 0+ Index	The issuer must be a sovereign issuer, supranational issuer or foreign agency issuer. In addition, Australian government-backed corporate debt is eligible.
S&P/ASX Government Inflation- Linked Bond 0+ Index	The issuer must be the Australian Government, state governments, territories, or semi-government issuers.
S&P/ASX Australian Government Inflation-Linked Bond 0+ Index	The issuer must be the Australian Government.
S&P/ASX Covered Bond 0+ Index	The issuer must be an Australian corporation. In addition, Kangaroo bond issues are eligible.
S&P/ASX Corporate Issuer Equal Weight Bond Index	The issuer must be an Australian corporation. In addition, Kangaroo bond issues are eligible. The ultimate issuer source is LSEG.

Currency and Market of Issue. Only Australian dollar-denominated bonds that are issued in the Australian market and/or traded on the ASX are eligible. Bonds issued through private placements are excluded.

Maturity. Except for the S&P/ASX High Yield Expanded Corporate Bond Ex Banks Index, bonds must be of bullet maturity with no embedded optionality (non-callable). Make-whole call bonds are an exception and are eligible. Securities must have an initial term to maturity greater than or equal to one year.

For the S&P/ASX High Yield Expanded Corporate Bond Ex Banks Index, bullets, callable, and puttable securities are included. Perpetual securities are ineligible.

Credit Rating Quality. The following credit rating quality criteria apply:

Investment Grade. The minimum credit rating for index inclusion is BBB-/Baa3/BBB-. The lowest of
all available ratings (S&P Global Ratings (SPGR), Moody's, and Fitch) is used as the index rating.
New issues must be rated by at least one rating agency (SPGR, Moody's, or Fitch) to be considered
at the next rebalancing.

• **High Yield.** The maximum credit rating for inclusion is BB+/Ba1/BB+. The lowest of all available ratings (SPGR, Moody's, and Fitch) is used as the index rating. Unrated bonds are also eligible for high yield indices.

For ratings-based sub-indices, the above rules are applied to the appropriate ratings band.

Pricing. Except for the S&P/ASX High Yield Corporate Bond 0+ Index and S&P/ASX High Yield Expanded Corporate Bond Ex Banks Index, the indices are calculated with Tradeweb bond prices, which are intended to represent the mid-point between executable bid and ask prices based on institutional block size transactions.

The S&P/ASX High Yield Corporate Bond 0+ Index and the S&P/ASX High Yield Expanded Corporate Bond Ex Banks Index are calculated with LSEG mid pricing.

Bonds not priced by the designated pricing source are ineligible for index inclusion.

Coupon Type. The following coupon types are eligible:

- Fixed rate non-zero coupon bonds.
- Zero coupon, floating rate notes, and fixed rate bonds with step-up are eligible only for the S&P/ASX High Yield Expanded Corporate Bond Ex Banks Index.

Collateral Types. Except for Covered Bonds, bonds secured by mortgages are excluded.

Bond Type. Inflation-linked issues are only eligible for the S&P/ASX Government Inflation-Linked 0+ Bond Index.

Size. At each rebalancing, the minimum par amount of each bond for index inclusion is set as follows:

Index	Bond Type	Minimum Par Amount
S&P/ASX Corporate Bond 0+ Index		
S&P/ASX High Yield Corporate Bond 0+ Index		A\$ 100 million
S&P/ASX Covered Bond 0+ Index	Non-government bonds	A\$ 100 IIIIIIOII
S&P/ASX Supranational and Sovereign Bond 0+ Index	Non-government bonds	
S&P/ASX High Yield Expanded Corporate Bond Ex Banks Index		A\$ 20 million
S&P/ASX Government Bond 0+ Index	Australian government and state government bonds	A\$ 250 million
	Australian government inflation-linked bonds*	A\$ 1 billion
S&P/ASX Government Inflation-Linked Bond 0+ Index	Australian state government inflation- linked bonds*	A\$ 500 million

^{*} Given the nature of inflation-linked bond issuances in the Australian market, a higher minimum par amount is set for the S&P/ASX Government Inflation-Linked 0+ Bond Index to ensure an investable offering.

Exclusions.

- Bonds that have defaulted are removed at the next rebalancing.
- Junior Unsecured bonds and Contingent Capital (CoCo) securities are excluded from the S&P/ASX High Yield Expanded Corporate Bond Ex Banks Index.

Reinvestment. Coupon payments and maturity cash flows are invested in the index daily, except for the S&P/ASX High Yield Expanded Corporate Bond Ex Banks Index. For the S&P/ASX High Yield Expanded Corporate Bond Ex Banks Index, all cash, including the coupon payments and principal prepayments, is kept in cash until the next rebalancing date.

Settlement. Bonds issued prior to the rebalancing reference date (regardless of the settlement date). Standard index settlement convention is same-day (e.g. T+0), unless otherwise specified. For monthends that fall on a weekend, the interest accrued during the month will be reflected within the calendar month, regardless of settlement convention.

Index Construction

Index Weighting

Except for the S&P/ASX Corporate Issuer Equal Weight Bond Index, the indices are market value weighted.

S&P/ASX Corporate Issuer Equal Weight Bond Index. The index is equal-weighted, whereby each ultimate issuer in the index is set to have an equal weight of 2% in the index at each semi-annual rebalancing. The weights of the ultimate issuers will float between rebalancings to reflect market movements.

For further details on market value and equal-weight calculations, please refer to S&P Dow Jones Indices' Fixed Income Index Mathematics Methodology.

Index Calculations

The total return is calculated by aggregating the interest return, reflecting the return due to paid and accrued interest, and price return, reflecting the gains or losses due to changes in the end-of-day price and principal repayments.

For further details regarding Index Calculations, please refer to S&P Dow Jones Indices' Fixed Income Index Mathematics Methodology.

Index Maintenance

Each index is maintained in accordance with the following rules:

- Eligible bonds are added to an index at the next rebalancing, subject to the schedule of the relevant index rebalancing procedures.
- Any index bond that fails to meet any one of the eligibility factors is removed from the index on that rebalancing date.
- Par amounts of index bonds are adjusted on the rebalancing date to reflect any changes that
 have occurred since the previous rebalancing date, due to partial calls, tenders, etc. Similarly,
 changes to par amounts due to mandatory sinking fund payments and scheduled amortization
 payments are made effective on the rebalancing date.
- Where an index bond is in default or misses an interest payment, the price reported by our
 primary data vendor is used. However, the Index Committee may determine that the bond be
 removed from an index at a different price and may specify a price of \$0.00. The decision of the
 Index Committee is final.

Rebalancing

Except for the S&P/ASX Corporate Issuer Equal Weight Bond Index, the S&P/ASX Australian Bond Index Series is reviewed and rebalanced on a monthly basis.

Rebalancing Schedule			
Rebalancing Frequency	Monthly		
Rebalancing Date	Last business day of the rebalancing period (T)		
Announcement Date	T – three business days (T-3)		
Reference Date	T – five business days (T-5)		

^{*} All days reflect after the market close

S&P/ASX Corporate Issuer Equal Weight Bond Index. The index is reviewed and rebalanced on a semi-annual basis in March and September, with the rebalancing effective dates the first business days of April and October, respectively. The rebalancing date, announcement date, and reference dates follow the timing of those outlined in the table above.

Additions, deletions and other changes to the indices arising from the rebalancing are made provided the security's reference information and pricing are available by designated pricing and data providers on the rebalancing reference date. Changes to the index are published on the announcement date and become effective on the rebalancing date. Information related to the rebalancing is obtained and disseminated after the close of business.

No issuers, or corresponding issuances, are added to the index between semi-annual rebalancings. If a bond is removed from the index between rebalancings, the weight of the bond is proportionally redistributed to the remaining bond issues for that ultimate issuer, leaving the total issuer weight unchanged.

Currency of Calculation and Additional Index Return Series

The indices calculate in Australian dollars. Certain indices are also available in foreign currency or currency hedged versions.

Spot foreign exchange rates as supplied by LSEG are taken daily at 4:17 PM Sydney Time and used in the end-of-day calculation of the foreign currency versions

WMR foreign exchange rates are taken daily at 4:00 PM London Time and used in the calculation of the indices. These mid-market fixings are calculated by WMR based on LSEG data and appear on LSEG pages.

Additional currency and currency hedged versions of the indices, as well as maturity, sector and rating-based sub-indices may be available. For a list of available sub-indices and tickers, please refer to S&P Dow Jones Indices' Fixed Income Index Directory available at www.spglobal.com/spdji/.

For more information on currency and currency hedged indices, please refer to S&P Dow Jones Indices' Fixed Income Index Mathematics Methodology.

Base Dates and History Availability

Index history availability, base dates, and base values are shown in the table below.

	Launch	First Value	Base	Base
Index	Date	Date	Date	Value
S&P/ASX Government Bond 0+ Index	09/04/2014	12/31/2004	05/31/2011	100

Index Governance

Index Committee

The S&P/ASX Fixed Income Index Committee maintains the indices. All members of the Committee are full-time professionals at S&P Dow Jones Indices and the ASX. Meetings are held whenever deemed appropriate.

The Committee oversees the management of the indices, including determinations of intra-rebalancing changes, maintenance and inclusion policies, and other matters affecting the maintenance and calculation of the indices.

In fulfilling its responsibilities, the Committee has full and complete discretion to (i) amend, apply, or exempt the application of index rules and policies as circumstances may require and (ii) add, remove, or by-pass any bond in determining the composition of an index.

The Committee may rely on any information or documentation submitted to it or gathered by it that the Committee believes to be accurate. The Committee reserves the right to reinterpret publicly available information and to make changes to the indices based on a new interpretation of that information at its sole discretion. All Index Committee discussions are confidential.

The Index Committee is separate from and independent of other analytical groups at S&P Global. In particular, the Index Committee has no access to or influence on decisions by S&P Global Ratings analysts.

S&P Dow Jones Indices' Index Committees reserve the right to make exceptions when applying the methodology if the need arises. In any scenario where the treatment differs from the general rules stated in this document or supplemental documents, clients will receive sufficient notice, whenever possible.

In addition to the daily governance of indices and maintenance of index methodologies, at least once within any 12-month period, the Index Committee reviews the methodology to ensure the indices continue to achieve the stated objectives, and that the data and methodology remain effective. In certain instances, S&P Dow Jones Indices may publish a consultation inviting comments from external parties.

For information on Quality Assurance and Internal Reviews of Methodology, please refer to S&P Dow Jones Indices' Fixed Income Policies & Practices Methodology.

Index Policy

Announcements

Announcements of any relevant information pertaining to the indices are made after market close. Press releases are posted on the S&P Dow Jones Indices' Web site at www.spglobal.com/spdji/.

Holiday Schedule

The indices are calculated daily, throughout the calendar year. The only days an index is not calculated are on days when the ASX is officially closed.

On the New South Wales Bank Holiday and Labour Day holidays, the pricing vendor does not disseminate an EOD value, so the indices calculate using the prior day's EOD prices and only reflect interest returns in index levels.

A complete holiday schedule for the year is available at www.spglobal.com/spdji/.

Rebalancing

The Index Committee may change the date of a given rebalancing for reasons including market holidays occurring on or around the scheduled rebalancing date. Any such change will be announced with proper advance notice where possible.

End-of-Day Calculation

Index levels are calculated at the end of each business day after market close, via S&P Dow Jones Indices' Web site, with the following exceptions, which calculate after foreign exchange rates and prices from vendor are available. This may be subject to change.

Index Releases

Releases are issued by S&P Dow Jones Indices at the end of the business day.

Recalculation Policy

For information on the recalculation policy please refer to S&P Dow Jones Indices' Fixed Income Policies & Practices Methodology.

Real-Time Calculation

Real-time, intra-day, index calculations are executed for the S&P ASX Australian Bond Index Series when the Australia bond market is open. Real-time calculations are based on Bid price from Tradeweb Bonds Real Time Price via LSEG. At its sole discretion, S&P Dow Jones Indices may change its data sources for real-time calculations or may cease publishing real-time index values. Real-time indices are not restated.

For information on Calculations and Pricing Disruptions, Expert Judgment and Data Hierarchy, please refer to S&P Dow Jones Indices' Fixed Income Policies & Practices Methodology.

Contact Information

For questions regarding an index, please contact: index_services@spglobal.com.

Index Dissemination

Index levels are available through S&P Dow Jones Indices' Web site at <u>www.spglobal.com/spdji/</u>, major quote vendors (see codes below), numerous investment-oriented websites, and various print and electronic media.

Tickers

The table below lists headline indices covered by this document. All versions of the below indices that may exist are also covered by this document. Please refer to the S&P DJI Methodology & Regulatory Status Database for a complete list of indices covered by this document.

Appendix - Methodology Changes

Methodology changes since January 1, 2015 are as follows:

	Effective Date	Methodology		
Change	(After Close)	Previous	Updated	
Ultimate Issuer Source Change: S&P/ASX Corporate Issuer Equal-Weight	03/31/2021	The ultimate issuer source is Capital IQ.	The ultimate issuer source is Refinitiv.	
Index Exclusion of Government Holdings from Par Amount Outstanding for Index Eligibility Purposes	12/31/2019	Government holdings are included in determining par amount outstanding for sovereign bonds.	Government holdings are excluded in determining par amount outstanding for sovereign bonds.	
Collateral Types	09/30/2016	Covered bonds, or bonds secured by mortgages, are eligible for the S&P/ASX Covered Bond 0+ Index only.	Bonds secured by mortgages, with the exception of covered bonds, are excluded.	

Disclaimer

Performance Disclosure/Back-Tested Data

Where applicable, S&P Dow Jones Indices and its index-related affiliates ("S&P DJI") defines various dates to assist our clients by providing transparency. The First Value Date is the first day for which there is a calculated value (either live or back-tested) for a given index. The Base Date is the date at which the index is set to a fixed value for calculation purposes. The Launch Date designates the date when the values of an index are first considered live: index values provided for any date or time period prior to the index's Launch Date are considered back-tested. S&P DJI defines the Launch Date as the date by which the values of an index are known to have been released to the public, for example via the company's public website or its data feed to external parties. For Dow Jones-branded indices introduced prior to May 31, 2013, the Launch Date (which prior to May 31, 2013, was termed "Date of introduction") is set at a date upon which no further changes were permitted to be made to the index methodology, but that may have been prior to the Index's public release date.

Please refer to the methodology for the Index for more details about the index, including the manner in which it is rebalanced, the timing of such rebalancing, criteria for additions and deletions, as well as all index calculations.

Information presented prior to an index's launch date is hypothetical back-tested performance, not actual performance, and is based on the index methodology in effect on the launch date. However, when creating back-tested history for periods of market anomalies or other periods that do not reflect the general current market environment, index methodology rules may be relaxed to capture a large enough universe of securities to simulate the target market the index is designed to measure or strategy the index is designed to capture. For example, market capitalization and liquidity thresholds may be reduced. In addition, forks have not been factored into the back-test data with respect to the S&P Cryptocurrency Indices. For the S&P Cryptocurrency Top 5 & 10 Equal Weight Indices, the custody element of the methodology was not considered; the back-test history is based on the index constituents that meet the custody element as of the Launch Date. Also, the treatment of corporate actions in back-tested performance may differ from treatment for live indices due to limitations in replicating index management decisions. Back-tested performance reflects application of an index methodology and selection of index constituents with the benefit of hindsight and knowledge of factors that may have positively affected its performance, cannot account for all financial risk that may affect results and may be considered to reflect survivor/look ahead bias. Actual returns may differ significantly from, and be lower than, back-tested returns. Past performance is not an indication or guarantee of future results.

Typically, when S&P DJI creates back-tested index data, S&P DJI uses actual historical constituent-level data (e.g., historical price, market capitalization, and corporate action data) in its calculations. As ESG investing is still in early stages of development, certain datapoints used to calculate certain ESG indices may not be available for the entire desired period of back-tested history. The same data availability issue could be true for other indices as well. In cases when actual data is not available for all relevant historical periods, S&P DJI may employ a process of using "Backward Data Assumption" (or pulling back) of ESG data for the calculation of back-tested historical performance. "Backward Data Assumption" is a process that applies the earliest actual live data point available for an index constituent company to all prior historical instances in the index performance. For example, Backward Data Assumption inherently assumes that companies currently not involved in a specific business activity (also known as "product involvement") were never involved historically and similarly also assumes that companies currently involved in a specific business activity were involved historically too. The Backward Data Assumption allows the hypothetical back-test to be extended over more historical years than would be feasible using only actual data. For more information on "Backward Data Assumption" please refer to the FAQ. The methodology and factsheets of any index that employs backward assumption in the back-tested history

will explicitly state so. The methodology will include an Appendix with a table setting forth the specific data points and relevant time period for which backward projected data was used. Index returns shown do not represent the results of actual trading of investable assets/securities. S&P DJI maintains the index and calculates the index levels and performance shown or discussed but does not manage any assets.

Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the Index or investment funds that are intended to track the performance of the Index. The imposition of these fees and charges would cause actual and back-tested performance of the securities/fund to be lower than the Index performance shown. As a simple example, if an index returned 10% on a US \$100,000 investment for a 12-month period (or US \$10,000) and an actual asset-based fee of 1.5% was imposed at the end of the period on the investment plus accrued interest (or US \$1,650), the net return would be 8.35% (or US \$8,350) for the year. Over a three-year period, an annual 1.5% fee taken at year end with an assumed 10% return per year would result in a cumulative gross return of 33.10%, a total fee of US \$5,375, and a cumulative net return of 27.2% (or US \$27,200).

S&P DJI does not act as a fiduciary or an investment advisor. While S&P DJI has obtained information from sources it believes to be reliable, S&P DJI does not perform an audit or undertake independent verification of any information it receives. S&P DJI reserves the right to vary or discontinue any index at any time for regulatory or other reasons. Various factors, including external factors beyond S&P DJI's control might necessitate material changes to indices.

To the extent that regulatory authorities allow a rating agency to acknowledge in one jurisdiction a rating issued in another jurisdiction for certain regulatory purposes, S&P Global Ratings reserves the right to assign, withdraw or suspend such acknowledgement at any time and in its sole discretion. S&P Dow Jones Indices, including S&P Global Ratings, disclaim any duty whatsoever arising out of the assignment, withdrawal, or suspension of an acknowledgement as well as any liability for any damage alleged to have been suffered on account thereof. Affiliates of S&P Dow Jones Indices LLC, including S&P Global Ratings, may receive compensation for its ratings and certain credit-related analyses, normally from issuers or underwriters of securities or from obligors. Such affiliates of S&P Dow Jones Indices LLC, including S&P Global Ratings, reserve the right to disseminate its opinions and analyses. Public ratings and analyses from S&P Global Ratings are made available on its Web sites, www.standardandpoors.com (free of charge), and www.ratingsdirect.com and www.globalcreditportal.com (subscription), and may be distributed through other means, including via S&P Global Ratings publications and third-party redistributors. Additional information about our ratings fees is available at www.standardandpoors.com/usratingsfees.

S&P Global keeps certain activities of its various divisions and business units separate from each other to preserve the independence and objectivity of their respective activities. As a result, certain divisions and business units of S&P Global may have information that is not available to other business units. S&P Global has established policies and procedures to maintain the confidentiality of certain nonpublic information received in connection with each analytical process.

In addition, S&P Dow Jones Indices provides a wide range of services to, or relating to, many organizations, including issuers of securities, investment advisers, broker-dealers, investment banks, other financial institutions, and financial intermediaries, and accordingly may receive fees or other economic benefits from those organizations, including organizations whose securities or services they may recommend, rate, include in model portfolios, evaluate, or otherwise address.

Some indices use the Global Industry Classification Standard (GICS®), which was developed by, and is the exclusive property and a trademark of, S&P Global and MSCI. Neither MSCI, S&P DJI nor any other party involved in making or compiling any GICS classifications makes any express or implied warranties or representations with respect to such standard or classification (or the results to be obtained by the use

thereof), and all such parties hereby expressly disclaim all warranties of originality, accuracy, completeness, merchantability, or fitness for a particular purpose with respect to any of such standard or classification. Without limiting any of the foregoing, in no event shall MSCI, S&P DJI, any of their affiliates or any third party involved in making or compiling any GICS classifications have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

S&P Dow Jones Indices products are governed by the terms and conditions of the agreements under which they may be provided. A license is required from S&P Dow Jones Indices to display, create derivative works of and/or distribute any product or service that uses, is based upon and/or refers to any S&P Dow Jones Indices and/or index data.

ESG Indices Disclaimer

S&P DJI provides indices that seek to select, exclude, and/or weight index constituents based on, but not limited to, certain environmental, social or governance (ESG) indicators, or a combination of those indicators, including the following: environmental indicators (including the efficient use of natural resources, the production of waste, greenhouse gas emissions, or impact on biodiversity); social indicators (such as, inequality and investment in human capital); governance indictors (such as sound management structures, employee relations, remuneration of staff, tax compliance, respect for human rights, anti-corruption and anti-bribery matters), specific sustainability or values-related company involvement indicators (for example, production/distribution of controversial weapons, tobacco products, or thermal coal), or controversies monitoring (including research of media outlets to identify companies involved in ESG-related incidents).

S&P DJI ESG indices use ESG metrics and scores in the selection and/or weighting of index constituents. ESG scores or ratings seek to measure or evaluate a company's, or an asset's, performance with respect to environmental, social and corporate governance issues.

The ESG scores, ratings, and other data used in S&P DJI ESG indices is supplied directly or indirectly by third parties (note these parties can be independent affiliates of S&P Global or unaffiliated entities) so an S&P DJI ESG index's ability to reflect ESG factors depends on these third parties' data accuracy and availability.

ESG scores, ratings, and other data may be reported (meaning that the data is provided as disclosed by companies, or an asset, or as made publicly available), modelled (meaning that the data is derived using a proprietary modelling process with only proxies used in the creation of the data), or reported and modelled (meaning that the data is either a mix of reported and modelled data or is derived from the vendor using reported data /information in a proprietary scoring or determination process).

ESG scores, ratings, and other data, whether from an external and/or internal source, is based on a qualitative and judgmental assessment, especially in the absence of well-defined market standards, and due to the existence of multiple approaches and methodologies to assess ESG factors and considerations. An element of subjectivity and discretion is therefore inherent in any ESG score, rating, or other data and different ESG scoring, rating, and/or data sources may use different ESG assessment or estimation methodologies. Different persons (including ESG data ratings, or scoring providers, index administrators or users) may arrive at different conclusions regarding the sustainability or impact of a particular company, asset, or index.

Where an index uses ESG scores, ratings or other data supplied directly or indirectly by third parties, S&P DJI does not accept responsibility for the accuracy of completeness of such ESG scores, ratings, or data. No single clear, definitive test or framework (legal, regulatory, or otherwise) exists to determine 'ESG', 'sustainable', 'good governance', 'no adverse environmental, social and/or other impacts', or other equivalently labelled objectives. In the absence of well-defined market standards and due to the existence of multitude approaches, the exercise of judgment is necessary. Accordingly, different persons may classify the same investment, product and/or strategy differently regarding 'ESG', 'sustainable', 'good governance', 'no adverse environmental, social and/or other impacts', or other equivalently labelled

objectives. Furthermore, the legal and/or market position on what constitutes an 'ESG', 'sustainable', 'good governance', 'no adverse environmental, social and/or other impacts', or other equivalently labelled objectives may change over time, especially as further regulatory or industry rules and guidance are issued and the ESG sustainable finance framework becomes more sophisticated.

Prospective users of an S&P DJI ESG Index are encouraged to read the relevant index methodology and related disclosures carefully to determine whether the index is suitable for their potential use case or investment objective.
